

## CHAPTER 98-27

### Committee Substitute for Committee Substitute for House Bill No. 1137

An act relating to tests for alcohol, chemical substances, or controlled substances; amending ss. 316.1932 and 316.1933, F.S., relating to implied consent for testing for impairment or intoxication in cases of death or serious bodily injury; authorizing certain health care providers who become aware of a person's unlawful blood-alcohol level to notify law enforcement officials; prescribing a form for the notice; providing that such notice or failure to provide notice is not a violation of any ethical, moral, or legal duty; prohibiting any action or administrative proceeding being brought against anyone participating in good faith in providing or failing to provide such notice; providing for certain immunity from civil or criminal liability and from any professional disciplinary action; providing for certain immunity in any judicial proceeding resulting from the notice or failure to provide notice; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Paragraph (f) of subsection (1) of section 316.1932, Florida Statutes, is amended to read:

316.1932 Breath, blood, and urine tests for alcohol, chemical substances, or controlled substances; implied consent; right to refuse.—

(1)

(f)1. The tests determining the weight of alcohol in the defendant's blood or breath shall be administered at the request of a law enforcement officer substantially in accordance with rules of the Department of Law Enforcement. Such rules must specify precisely the test or tests that are approved by the Department of Law Enforcement for reliability of result and ease of administration, and must provide an approved method of administration which must be followed in all such tests given under this section. However, the failure of a law enforcement officer to request the withdrawal of blood does not affect the admissibility of a test of blood withdrawn for medical purposes.

2.a. Only a physician, certified paramedic, registered nurse, licensed practical nurse, other personnel authorized by a hospital to draw blood, or duly licensed clinical laboratory director, supervisor, technologist, or technician, acting at the request of a law enforcement officer, may withdraw blood for the purpose of determining its alcoholic content or the presence of chemical substances or controlled substances therein. However, the failure of a law enforcement officer to request the withdrawal of blood does not affect the admissibility of a test of blood withdrawn for medical purposes.

b. Notwithstanding any provision of law pertaining to the confidentiality of hospital records or other medical records, if a health care provider, who

is providing medical care in a health care facility to a person injured in a motor vehicle crash, becomes aware, as a result of any blood test performed in the course of that medical treatment, that the person's blood-alcohol level meets or exceeds the blood-alcohol level specified in s. 316.193(1)(b), the health care provider may notify any law enforcement officer or law enforcement agency. Any such notice must be given within a reasonable time after the health care provider receives the test result. Any such notice shall be used only for the purpose of providing the law enforcement officer with reasonable cause to request the withdrawal of a blood sample pursuant to this section.

c. The notice shall consist only of the name of the person being treated, the name of the person who drew the blood, the blood-alcohol level indicated by the test, and the date and time of the administration of the test.

d. Nothing contained in s. 395.3025(4), s. 455.667, or any applicable practice act affects the authority to provide notice under this section, and the health care provider is not considered to have breached any duty owed to the person under s. 395.3025(4), s. 455.667, or any applicable practice act by providing notice or failing to provide notice. It shall not be a breach of any ethical, moral, or legal duty for a health care provider to provide notice or fail to provide notice.

e. A civil, criminal, or administrative action may not be brought against any person or health care provider participating in good faith in the provision of notice or failure to provide notice as provided in this section. Any person or health care provider participating in the provision of notice or failure to provide notice as provided in this section shall be immune from any civil or criminal liability and from any professional disciplinary action with respect to the provision of notice or failure to provide notice under this section. Any such participant has the same immunity with respect to participating in any judicial proceedings resulting from the notice or failure to provide notice.

3. The person tested may, at his or her own expense, have a physician, registered nurse, other personnel authorized by a hospital to draw blood, or duly licensed clinical laboratory director, supervisor, technologist, or technician, or other person of his or her own choosing administer an independent test in addition to the test administered at the direction of the law enforcement officer for the purpose of determining the amount of alcohol in the person's blood or breath or the presence of chemical substances or controlled substances at the time alleged, as shown by chemical analysis of his or her blood or urine, or by chemical or physical test of his or her breath. The failure or inability to obtain an independent test by a person does not preclude the admissibility in evidence of the test taken at the direction of the law enforcement officer. The law enforcement officer shall not interfere with the person's opportunity to obtain the independent test and shall provide the person with timely telephone access to secure the test, but the burden is on the person to arrange and secure the test at the person's own expense.

4. Upon the request of the person tested, full information concerning the test taken at the direction of the law enforcement officer shall be made available to the person or his or her attorney.

5. A hospital, clinical laboratory, medical clinic, or similar medical institution or physician, certified paramedic, registered nurse, licensed practical nurse, other personnel authorized by a hospital to draw blood, or duly licensed clinical laboratory director, supervisor, technologist, or technician, or other person assisting a law enforcement officer does not incur any civil or criminal liability as a result of the withdrawal or analysis of a blood or urine specimen, or the chemical or physical test of a person's breath pursuant to accepted medical standards when requested by a law enforcement officer, regardless of whether or not the subject resisted administration of the test.

Section 2. Paragraph (a) of subsection (2) of section 316.1933, Florida Statutes, is amended to read:

316.1933 Blood test for impairment or intoxication in cases of death or serious bodily injury; right to use reasonable force.—

(2)(a) Only a physician, certified paramedic, registered nurse, licensed practical nurse, other personnel authorized by a hospital to draw blood, or duly licensed clinical laboratory director, supervisor, technologist, or technician, acting at the request of a law enforcement officer, may withdraw blood for the purpose of determining the alcoholic content thereof or the presence of chemical substances or controlled substances therein. However, the failure of a law enforcement officer to request the withdrawal of blood shall not affect the admissibility of a test of blood withdrawn for medical purposes.

1. Notwithstanding any provision of law pertaining to the confidentiality of hospital records or other medical records, if a health care provider, who is providing medical care in a health care facility to a person injured in a motor vehicle crash, becomes aware, as a result of any blood test performed in the course of that medical treatment, that the person's blood-alcohol level meets or exceeds the blood-alcohol level specified in s. 316.193(1)(b), the health care provider may notify any law enforcement officer or law enforcement agency. Any such notice must be given within a reasonable time after the health care provider receives the test result. Any such notice shall be used only for the purpose of providing the law enforcement officer with reasonable cause to request the withdrawal of a blood sample pursuant to this section.

2. The notice shall consist only of the name of the person being treated, the name of the person who drew the blood, the blood-alcohol level indicated by the test, and the date and time of the administration of the test.

3. Nothing contained in s. 395.3025(4), s. 455.667, or any applicable practice act affects the authority to provide notice under this section, and the health care provider is not considered to have breached any duty owed to the person under s. 395.3025(4), s. 455.667, or any applicable practice act by providing notice or failing to provide notice. It shall not be a breach of any ethical, moral, or legal duty for a health care provider to provide notice or fail to provide notice.

4. A civil, criminal, or administrative action may not be brought against any person or health care provider participating in good faith in the provision of notice or failure to provide notice as provided in this section. Any

person or health care provider participating in the provision of notice or failure to provide notice as provided in this section shall be immune from any civil or criminal liability and from any professional disciplinary action with respect to the provision of notice or failure to provide notice under this section. Any such participant has the same immunity with respect to participating in any judicial proceedings resulting from the notice or failure to provide notice.

Section 3. This act shall take effect July 1 of the year in which enacted.

Approved by the Governor April 28, 1998.

Filed in Office Secretary of State April 28, 1998.
