The Department's bimonthly distribution of funds provided in Specific Appropriation 109 shall be made in equal payments on or about the 10th and 26th of each month.

Funds provided in Specific Appropriation 109 shall be allocated using a base student allocation of \$3,227.74 for the K-12 FEFP.

Funds appropriated in Specific Appropriation 109 are provided only for student enrollment associated with the 180 day regular school term, except for students enrolled in Juvenile Justice education programs. The summer school period for students in such programs shall begin on the day immediately following the end of the regular school year and end on the day immediately preceding the subsequent regular school year. Students in juvenile justice education programs shall be funded for no more than 25 hours per week of direct instruction. The Department of Education shall develop and implement a method which captures all direct instructional time provided to such students.

From the funds appropriated in Specific Appropriation 109 and Specific Appropriation 110A, each school district with juvenile justice educational programs and students in charter schools shall provide in 1999-2000 an amount of funds per FTE student that is no less than the amount provided for students in these programs in 1998-99.

Pursuant to s. 236.081(9), Florida Statutes, a minimum guaranteed level of funding shall be calculated to provide each school district a 1.0 percent increase per weighted full-time equivalent K-12 student over the amount per weighted full-time equivalent K-12 student funded in the 1998-99 FEFP. However, for the 1998-99 portion of the calculation, summer school weighted FTE for programs transferred to the class size reduction/supplemental instruction program, Specific Appropriation 110A, shall not be included. The calculation of this minimum funding shall compare total state formula funds for K-12 programs and categorical increase funds and actual discretionary taxes for 1998-99 with total state formula and categorical increase funds for K-12 programs and maximum potential discretionary taxes for 1999-00 and shall include the adjustment for the

Florida Retirement System reduction as shown in legislative workpapers for the 1999-2000 FEFP.

The district cost differential (DCD) for each district shall be calculated pursuant to the provisions of s. 236.081(2), Florida Statutes.

From the funds in Specific Appropriation 109, \$30,000,000 is provided for a Sparsity Supplement as defined in s. 236.081(6), Florida Statutes, for school districts of 20,000 and fewer K-12 FTE in 1999-00.

Total unadjusted required local effort taxes for 1999-00 shall be \$3,872,505,386. The maximum nonvoted discretionary millage which may be levied pursuant to the provisions of s. 236.25(1), Florida Statutes, by district school boards in 1999-00 shall be:

- 1) 0.510 mills, and
- 2) An additional levy, not to exceed 0.250 mills, that will raise an amount not to exceed \$50 per full-time equivalent student (FTE).
- 3) In addition, any district that provides from its required local effort 90 percent of its total FEFP calculation, and its percent increase per K-12 Weighted FTE is less than the state average percent increase per K-12 Weighted FTE, may levy additional millage that will raise an amount not to exceed the difference between the district's percent increase and the state average percent increase.

District school boards that levy the entire additional 0.250 mills and raise less than \$50 per K-12 FTE shall receive, from the funds provided in Specific Appropriation 109, an amount that, combined with funds raised by the 0.250 mills, will provide \$50 per K-12 FTE. To be eligible for state funds provided in this paragraph, a district must levy the full 0.250 mills and the full 0.510 mills.

Funds provided in Specific Appropriation 109 are based upon program cost factors for 1999-00 as follows:

From the funds provided in Specific Appropriation 109, the value of 68.15 Weighted FTE students is provided to implement the revised funding model for Exceptional Student Education. The WFTE value shall be used to supplement the funding of students served in ESE programs 254 and 255 when a school district has less than 10,000 FTE student enrollment and less than 3 FTE eligible students per program. The Commissioner of Education shall allocate the value of the supplemental FTE based on documented evidence of the difference in the cost of the service and the amount of funds received in the districts FEFP allocation for the students being served. The supplemental value shall not exceed 3 FTE for each program, 254 and 255.

A student in cooperative education or other types of programs incorporating on-the-job training shall not be counted for more than twenty-five (25) hours per week of membership in all programs when calculating full-time student membership, as provided in s. 236.013, Florida Statutes, for funding under s. 236.081, Florida Statutes.

None of the funds provided in the 1999-00 General Appropriations Act for developmental research schools shall be used to pay overhead or indirect costs described in s. 216.346, Florida Statutes.

From the funds provided in Specific Appropriation 109, \$70,350,000 is provided for Safe Schools activities and shall be allocated as follows: \$30,000 shall be distributed to each district, and the remaining balance shall be allocated as follows: two-thirds based on the latest official Florida Crime Index provided by the Department of Law Enforcement and one-third based on each district's share of the state's total weighted student enrollment. Safe Schools activities include (1) after school programs for middle school students, (2) other improvements to enhance the learning environment, including implementation of conflict

resolution strategies, (3) alternative school programs for adjudicated youth, and (4) other improvements to make the school a safe place to learn. Each district shall determine, based on a review of its existing programs and priorities, how much of its total allocation to use for each authorized Safe Schools activity.

From the funds appropriated in Specific Appropriation 109, a Compression Adjustment shall be calculated as follows:

Step 1: \$32,995,707 is provided to reduce the disparity in total potential funds per unweighted full-time equivalent K-12 student.

(a) Determine the total potential funds per K-12 FTE for each district. Identify the districts with funds per K-12 FTE that are below the state average. Calculate the amount that is one standard deviation from the mean. If the funds per K-12 FTE for any district are less than the amount equal to one standard deviation below the mean, the funds shall be increased by an amount necessary to achieve one standard deviation from the mean.

(b) All districts with total potential funds per K-12 FTE below the mean shall be increased toward the mean by multiplying the difference below the mean by an equal percentage.

(c) The amount of the increase per student shall be the adjustment to one standard deviation or the equal percentage, whichever is greater.

(d) No district shall receive a disparity adjustment that would change the rank order of the district.

Step 2: Funds are provided to reduce the disparity in total potential funds per weighted full-time equivalent K-12 student.

(a) Determine the total potential funds per weighted K-12 full-time equivalent for each district.

(b) Calculate the weighted state average funds per weighted K-12 full-time equivalent.

(c) Calculate 97.5% of the weighted state average.

(d) For districts funded at less than 97.5% of the state average per weighted full-time-equivalent student, determine the district difference from 97.5% of the average and multiply the difference by

Funds provided in Specific Appropriation 109, for inservice personnel training, as prescribed in s. 236.081(3), F.S., are transferred to Specific Appropriation 117B.

From the funds provided in Specific Appropriations 109 and 110A, that are allocated to Dade County for dropout prevention services, 800 full-time equivalent students and \$4,445,808, shall be provided to the Adult Mankind Organization, Inc. From the funds appropriated in Specific Appropriation 109 for Dade County Schools that the district chooses to use for mentoring programs, \$1,100,000 may be used for 500 Role Models of Excellence. are provided for inservice training of instructional personnel. Each school district shall design a system, approved by the Department of Education, for the professional growth of instructional personnel that links and aligns inservice activities with student and instructional personnel needs as determined by school improvement plans, annual school reports, student achievement data, and performance appraisal data of teachers and administrators. Inservice activities shall primarily focus on subject content and teaching methods, including technology, as related to the Sunshine State Standards; assessment and data analysis; classroom management; and school safety.

Funds appropriated in Specific Appropriation 117B shall be prorated among all districts based on each district's proportion of the state total unweighted full time equivalent student enrollment.

To be eligible to receive funds appropriated in Specific Appropriation 117B, districts must have a professional development system approved by the Department of Education and must require school principals to establish and maintain individual professional development plans for each instructional employee. The need for any training activity defined in a teacher's professional development plan must clearly be related to specific performance data for the students to whom the teacher is assigned. Plans must include clearly defined training objectives and specific and measurable improvements in student performance that are expected to result from the training activity. Plans must also include an evaluation component; principals must measure the extent to which each training activity did accomplish the student performance gains that were predicted to result from the training activity.

The Department of Education shall provide technical assistance to districts for development of these individual professional development plans, and the Commissioner of Education shall by March 1, 2000, submit a report to the Governor and to the President of the Senate and the Speaker of the House of Representatives that describes progress districts have made implementing these plans, and the report shall include a formal evaluation of plans developed in at least five districts. | | GRANTS AND AIDS - EXTENDED SCHOOL YEAR | |
| | FROM GENERAL REVENUE FUND | 40,000,000 |

Funds appropriated in Specific Appropriation 117C are provided for schools that choose to extend the length of the academic year for students from 180 to 210 days. To be eligible to receive funds provided for an extended school year, a school must submit to the Commissioner of Education by August 1, 1999, a letter of commitment to extend the length of the school year. By January 1, 2000, the school must also submit an implementation plan, which includes, but is not limited to, 1) assurance that teacher training, individual and collaborative teacher planning time, and innovative use of technology are key elements of the school's implementation of an extended school year, and 2) assurance that additional time-on-task for students will be used to provide additional course content.

The school's letter of commitment must be accompanied by a letter of endorsement from the district school board, which acknowledges the school's commitment and expresses support for the school's extended school year implementation plan. Districts must also provide assurance that extended school year funds shall be used to provide twelve-month contracts for teachers in participating schools. The district must include schools implementing an extended school year in the district's controlled open enrollment plan. In addition, both the school and the district board must provide assurance that appropriate student performance data will be used to measure the extent to which an extended school year is associated with increased student performance. This measurement must include a comparison of the performance of comparable student populations in 180-day schools and 210-day schools. The Commissioner of Education is authorized to reduce a district's 2000-2001 FEFP funding entitlement by the amount of its 1999-2000 extended school year allocation if the district fails to submit 1999-2000 student performance data by September 1, 2000.

Funds in Specific Appropriation 117C are provided for both planning and operations grants. Schools with 500 or fewer students shall receive an \$80,000 planning grant. Schools with a student population greater than 500 and less than or equal to 1,000 shall receive a planning grant of \$100,000. Schools with a student population greater than 1,000 shall receive a planning grant of \$120,000.

SECTION 2 - EDUCATION (ALL OTHER FUNDS)

SPECIFIC
APPROPRIATION

~~Each district shall receive an allocation for the operation of an extended school year which shall be calculated by (1) multiplying each district's FEFP base funding amount (2) times the number of weighted students participating in an extended school year divided by the total weighted student enrollment of the district, (3) times 1/6, and (4) times 1/2. If the amount required to fund planning grants and operations grants for all eligible schools exceeds the amount of the appropriation, the Commissioner shall fund the cost of extended school year operations on a first come first served basis. Only those 234 schools that indicated an interest in an extended school year in response to the Department of Education's February, 1999, extended school year survey shall be eligible to receive funds appropriated in Specific Appropriation 117C. In the event more than 50% of the 234 eligible schools submit an implementation plan by the January 1, 2000 deadline, the Commissioner of Education shall consult with the President of the Senate and the Speaker of the House of Representatives regarding the full annualized cost of implementing an extended school year for the 2000-2001 year for all schools that have submitted their implementation plans.~~

~~The Commissioner of Education shall not authorize the release of any funds for operations for any school until that school certifies that its planning process is complete and that it is ready to fully implement the extended school year.~~

~~Any school that operated a 210 day extended school year in 1998-99 shall receive funds for the operation of an extended school year for the 1999-2000 school year from the funds appropriated in Specific Appropriation 117C.~~

The Commissioner of Education shall report to the Executive Office of the Governor, the President of the Senate and the Speaker of the House of Representatives by August 15, 1999, and November 15, 1999 and January 15, 2000 regarding progress made by schools that are preparing to implement an extended school year. These reports shall include a projection of the full cost of extended school year implementation for all eligible schools that are expected to implement an extended school year during the 1999-2000 school year. The Commissioner of Education shall also report to the Executive Office of the Governor, the President of the Senate and the Speaker of the House of Representatives by July 15, 2000 regarding the effectiveness of school district planning and initial implementation of an extended school year.

The review shall examine issues related to funding, including establishment of a maximum amount per student and the feasibility of establishing a competitive contract process, identification of areas of need, evaluation of program quality and performance, and procedures related to both the initial proposal review process and the reevaluation of existing contracts. The Commission shall submit a report and recommendations to the Legislature and State Board of Education by February 1, 2000.

purpose of enrollment and student fees.

Funds in Specific Appropriation 180 reflect a reduction of \$7,549,066 from the General Revenue Fund and \$3,089,189 from the Educational and General Student and Other Fees Trust Fund to adjust each university's actual enrollment to within 95% of 1998-99 planned enrollment by level. These corridor adjustments have been applied to the following institutions: Florida Agricultural and Mechanical University, 252 upper level FTEs and 53 graduate FTEs; University of South Florida, 575 upper level FTEs and 89 graduate FTEs; Florida Atlantic University, 70 lower level FTEs and 4 graduate FTEs; and Florida International University, 12 graduate FTEs.

The general revenue savings from the application of this policy shall be used to increase the delivery of academic programs on branch campuses, centers, and areas of the State University System in which demand for courses exceed the funded enrollment, as determined by the Chancellor of the State University System after consulting with the university presidents, the Executive Director of the State Board of Community Colleges and the Executive Director of the Postsecondary Education Planning Commission. These funds are provided as two-year start-up funding for program development and expansion, or as increased full-time equivalents (FTEs) for universities in which the student demand for courses exceeds the funded enrollment. Allocation of FTEs to campuses shall be consistent with the Strategic Plan adopted by the Board of Regents. The Board of Regents shall adjust the 1999-2000 funded enrollment plan to include any additional FTEs associated with this provision and report the FTEs to the budget offices in the House of Representatives, Senate, and Executive Office of the Governor. The Board of Regents may submit a budget amendment requesting student fee trust authority for the student fee revenue associated with these additional students.

From the funds in Specific Appropriation 180, \$15,079,182 from the General Revenue Fund and \$8,350,866 from the Educational and General Student and Other Fees Trust Fund is provided for the following enrollment growth: 1,444 lower level FTEs, 700 upper level FTEs, and 500 graduate FTEs. Funding for each full-time equivalent has been provided as follows: lower level - \$6,392; upper level - \$9,415; and graduate level - \$15,219. The Board of Regents shall allocate these student FTEs to the universities using the following criteria: community college articulation, graduation, and

APPROPRIATION

transfer patterns; lower level flow through; demographic trends; application, admissions, and enrollment trends; actual enrollment performance; and the Strategic Plan approved by the Board of Regents on November 19, 1998. The Board of Regents may shift enrollment among institutions by level, but shall not make shifts among enrollment levels. In addition, FTEs are provided to the following institutions: Florida Gulf Coast University, 200 lower level FTEs and 75 upper level FTEs; Florida Atlantic University, 31 upper level FTEs; and Florida International University, 65 graduate FTEs.

These FTEs associated with Florida Atlantic University and Florida International University reflect the implementation of the policy adopted by the Board of Regents relating to the Comprehensive University Presence.

By May 1, 2000, the Board of Regents shall provide to the Speaker of the House of Representatives, the President of the Senate, and the Executive Office of the Governor a comparison of actual enrollment for Final Summer 1999, Final Fall 1999, and Preliminary Spring 2000 to funded enrollment by level. Both the general revenue and student fee revenue for FTE for any university more than 2.0% under the funded enrollment by level by May 1 shall be redirected by the Board of Regents for the purpose of increasing the delivery of academic programs on branch campuses and centers, as determined by the Chancellor of the State University System after consulting with the university presidents, the Executive Director of the State Board of Community Colleges and the Executive Director of the Postsecondary Education Planning Commission. The Board of Regents shall adjust the 1999-2000 funded enrollment plan to include any additional FTEs associated with this provision and report the FTEs to the budget offices in the Senate, House of Representatives, and Executive Office of the Governor.

The enrollment policy adopted by the Legislature does not limit the number of alternative admissions from out-of-state; however, no state university may receive the general revenue funding associated with the enrollment of out-of-state alternative admissions. For the purposes of implementing this policy, the Board of Regents shall not reduce the number of FTEs associated with alternative admissions enrolled in FY 1999-2000, but shall segregate these FTEs and not count them toward the 2000-2001 enrollment plan for the State University System.

The following issues are dependent on state match being provided by participating counties in sufficient amounts to cover the amount budgeted in the Grants and Donations Trust Fund: Specific Appropriation 271 - Regional Perinatal Intensive Care Center Disproportionate Share Program; Specific Appropriation 243 - Regular Hospital Disproportionate Share Program; Specific Appropriation 238 - Graduate Medical Education Disproportionate Share Program; and Specific Appropriation 246 for the adult out-patient hospital reimbursement yearly cap at \$1,000 and to maintain the current county outpatient reimbursement ceiling. From the funds in Specific Appropriations 224, 225A and 225B, the Agency for Health Care Administration in consultation with the Department of Elderly Affairs and the Department of Children and Family Services shall review the current assisted living waiver program to determine if the existing waiver can be modified to address the needs of the Optional State Supplementation (OSS) eligible population or whether a new waiver should be developed. Implementation of any waiver is contingent upon federal approval of the waiver and legislative approval and the availability of state matching funds in the Department of Children and Family Services and/or the Department of Elderly Affairs.

From the funds in Specific Appropriations 224, 225A and 225B, the Agency for Health Care Administration in consultation with the Department of Health shall develop a Trauma Care Medicaid Waiver Program for reimbursement to trauma centers for the care of Medicaid eligible persons. The waiver may include provisions for expedited eligibility determination, limited presumptive eligibility, reimbursement rate modifications and streamlined reimbursement procedures. Implementation of any waiver is contingent upon federal approval of the waiver and the availability of state matching funds in the Agency for Health Care Administration, the Department of Health or other local match. Subsequent to federal approval and upon

determination of adequate state matching funds, the Agency for Health Care Administration may seek additional budget authority to implement the approved waiver subject to the consultation provisions of Chapter 216, Florida Statutes. If the agency determines that a waiver is not required to achieve these improvements, they shall report those findings to the Governor, the House and the Senate no later than November 1, 1999. The agency may not implement these enhancements unless specific legislative authorization is obtained.

From the funds in Specific Appropriations 224 through 279, the Medicaid Services Program will meet the following performance standards as required by the Government Performance and Accountability Act of 1994, to ensure that health services are provided to Medicaid eligible pregnant women, children, disabled adults and the elderly.

SPECIFIC APPROPRIATION

Funds in Specific Appropriation 1118A shall be used for a hurricane mitigation and protection plan for public schools designated as hurricane shelters to provide for reinforcement and upgrade of existing windows to approved FEMA and DCA hurricane barriers. The Department of Community Affairs shall enter into a contract to provide such barriers as the Department may deem appropriate. The Department shall also take into consideration window barriers which provide security and energy efficiencies. The Department shall apply for additional federal mitigation or disaster relief matching grant funds where practical and appropriate. The Department may request a budget amendment under chapter 216, F.S., to appropriate any award of federal matching grants.

~~From funds in Specific Appropriation 1118A, \$1,000,000 shall be provided for upgrading of 10 school evacuation sites to American Red Cross standards in Osceola County. The Department of Community Affairs shall apply for additional federal mitigation or disaster relief matching grant funds where practical and appropriate. Executive Office of the Governor to develop a budget amendment pursuant to the provisions of Chapter 216, Florida Statutes, to identify and utilize appropriate sources of state matching funds from the interest earnings and unencumbered cash balances within the department's trust funds of state funds related to previous disasters. From funds in the Grants and Donations Trust Fund provided in Specific Appropriation 1125, the state shall meet its match requirement for federally-declared disasters by requiring a 12.5 percent match from local governments along with the state share of 12.5 percent. Because the location, type of disaster and severity of the event can materially effect the magnitude of costs, a local government's share may be initially provided by the state with future repayment being provided by the appropriate local government or deducted from the local government's state revenue sharing allocation. Additionally, the Executive Office of the Governor may waive the local 12.5 percent match after consultation with the Legislature pursuant to s. 216.177, F.S., if it is determined that such a match cannot be provided or that by doing so would effect a documented hardship on the local entity.

SECTION 8 - SALARIES AND BENEFITS - Fiscal Year 1999-2000

Statement of Purpose

This section provides instructions for implementing the Fiscal Year 1999-2000 salary and benefit increases provided in Specific Appropriation 1531. All allocations and distributions of these funds are to be made in strict accordance with the provisions of this act. For the purpose of calculating and distributing allocations to agencies, all references to "base salary" in this section refer to the base rate of pay as of July 1, 1998, inclusive of the 1998-99 fiscal year appropriated salary increases. References to "eligible" employees refer to employees who are, at a minimum, meeting their required performance standards. If an ineligible employee achieves performance standards subsequent to the salary increase implementation date, the employee may receive an increase; however, such increase shall be effective on the date the employee becomes eligible but not retroactively.

1. SALARY INCREASES

A. CAREER SERVICE AND EMPLOYEES SUBJECT TO THE CAREER SERVICE

Funds are provided in Specific Appropriation 1531 for pay increases for all eligible employees represented by: (1) the Florida Police Benevolent Association, (2) the Florida Nurses Association, and (3) the American Federation of State, County and Municipal Employees, Council 79, as well as all other eligible Career Service employees not included in a represented collective bargaining unit. Funds are to be distributed as follows:

1) For all eligible unit and non-unit Career Service employees, other than employees assigned to the professional health care longevity level pay plan, funds are provided for a competitive pay adjustment of 2.8 percent on each employee's September 30, 1999, base rate of pay, effective October 1, 1999.

Each eligible full-time Career Service employee shall receive an annualized minimum increase of \$1000. If the competitive pay adjustment is less than \$1000, each employee shall receive an additional increase which provides the employee a total annualized increase of \$1000. Each eligible part-time employee in an authorized position shall receive a prorated portion of the competitive pay adjustment provided to full-time employees and shall receive a prorated portion of the additional amount necessary to assure the annualized minimum adjustment. If an employee's established work schedule is less than 12 months, the pay adjustment shall be prorated based on the number of months approved in the work schedule.

2) Based on the funds provided in Specific Appropriation 1531 which are different from the funds recommended for the negotiated collective bargaining agreement, it is the intent of the Legislature for all eligible unit and non-unit employees assigned to the professional health care longevity level pay plan to receive an upward competitive pay adjustment of one level on each employee's anniversary date. The remaining funds provided for unit and non-unit employees are further
