All assessments shall be made against the land subject to assessment, and the roll shall set forth the names of the respective owners of such lands.

(2) It is the duty of the county tax collector to collect the assessments according to the assessment roll and deliver the whole of such proceeds of such collection, less the costs of collection, monthly to the board of commissioners, taking its receipt for such funds. The tax collector shall, upon delivery of such funds to the board of commissioners, furnish it with a description of the lands for which payments are made.

(3) Such non-ad valorem assessments shall be a lien upon the lands so assessed prior in dignity to all other liens and assessments against the lands, except for liens for county taxes, until paid. The assessment shall become a lien from January 1 of the year for which the assessment is made, and shall be payable on and after November 1 of the same year without discounts to the tax collector, unless authorized by the board of commissioners, but shall not become delinquent unless unpaid on April 1 of the following year. Section 7. Ad valorem taxes.—In addition to or in lieu of levying non-ad valorem assessments pursuant to section 4, the board of commissioners may, pursuant to Article VII, section 9 of the Florida Constitution, levy an ad valorem tax of not more than 3 mills against the taxable property within the district, except as provided by chapter 191, Florida Statutes, as amended from time to time.

(d) The payment of salaries and benefits to a fire chief and other personnel.

Section 9. District powers and duties.—

(1) The powers of the district may be exercised only for the purpose of providing services, equipment, and facilities within the district, and no expenditure may be made by the district that does not relate to that purpose. However, the district may enter into contracts to furnish district personnel and facilities for the purpose of providing additional services when such contracts provide that the reasonable cost of furnishing such personnel and facilities will be paid by the other contracting party.

(2) In addition to any powers set forth in this act, the district, as the sole provider of fire, rescue, and emergency medical services within the district, shall hold all powers, functions, and duties set forth in chapters 189, 191, and 197, Florida Statutes, as they may be amended from time to time,

including, but not limited to, ad valorem taxation, bond issuance, other revenue-raising capabilities, budget preparation and approval, liens and foreclosure of liens, use of tax deeds and tax certificates as appropriate for non-ad valorem assessments, and contractual agreements. The district may be financed by any method established in this act, chapter 189 or chapter 191, Florida Statutes, or any other applicable general or special law, as they may be amended from time to time.

(3) The board of commissioners may acquire by gift, lease, or purchase such firefighting equipment as is deemed necessary for the protection of the district, and it may make and enter into contracts relating to any and all purposes of the district.

(4) The board of commissioners may hire a fire chief and such other personnel as are required to operate firefighting equipment, inspect property, or provide administrative support.

(5) The officers of the board of commissioners shall have the administrative duties set forth in this act and chapters 189 and 191, Florida Statutes, as they may be amended from time to time.

(6) The board of commissioners may adopt such policies and regulations as it deems necessary to transact its business and carry out the provisions of this act.

(7) The board of commissioners shall appoint a Fire Marshal, who shall work with and cooperate with all local and state governmental bodies within the district to prevent fires of all types. The Fire Marshal shall have the power to issue orders and citations for code violations in the same manner as the State Fire Marshal pursuant to chapter 633, Florida Statutes. The Fire Marshal must inspect, no less frequently than annually: places of assembly; educational facilities; residential structures, other than detached one-family or two-family residences; motels and hotels; dormitories and lodging or rooming houses; commercial and business structures; industrial facilities; and storage facilities.

(8) The fire chief shall report the activities of the Fire Marshal to the board of commissioners annually.

(9) The board of commissioners shall adopt a fire code for the district.

Section 10. If any municipality or other fire control district annexes any land included in the district, the district shall continue as the sole taxing, enforcing, and service-providing authority for district purposes in the annexed land.

Section 11. District expansion.—The district boundary may be extended from time to time as follows:

(1)(a) Land contiguous to the boundaries of the district in unincorporated Pinellas County may be included in the district when a written petition for inclusion signed and sworn to by a majority of the owners of the real property within the tract or tracts to be included in the district has been presented to the board of commissioners and the proposal has been approved by

the affirmative vote of no fewer than three members of the board of commissioners at a regular meeting.

(b) The petition must contain the legal description of the property sought to be added to the district and the names and addresses of the owners of the property.

(2) If a proposal to add an area to the district as defined in subsection (1) is approved by the affirmative vote of no fewer than three members of the board of commissioners at a regular meeting, the board of commissioners shall thereafter adopt a resolution describing the lands to be included within the district and shall cause such resolution to be duly enrolled in the record of the meeting and a certified copy of the resolution to be recorded in the Office of the Clerk of the Circuit Court in Pinellas County.

(3) Upon adoption of the resolution by the board, the district shall, pursuant to chapter 191, Florida Statutes, request that its legislative delegation approve said addition and sponsor legislation amending the district boundary. Upon approval by the Legislature the boundary shall be amended.

(4) Lands within municipal boundaries of cities contiguous to district boundaries may be included in the district upon request by the governing board of the municipality, approval of said request by affirmative vote of no fewer than three members of the district board, and referendum approval of inclusion by the electors of the municipality. The referendum shall be conducted by the municipality at the next available special or general election occurring at least 90 days following district approval of inclusion.

(5) Upon approval by the board, the district shall, pursuant to chapter 191, Florida Statutes, request that its legislative delegation approve said addition and sponsor legislation amending the district boundary. Upon approval by the Legislature the boundary shall be amended.

(6) It is the intent of this section that municipalities or the owners of land requesting inclusion in the district bear the substantial costs associated with the process, including, but not limited to, any referenda or required legislation.

Section 12. Impact fees.—

(1) It is hereby declared that the cost of new facilities for services within the district should be borne by new users of district services, to the extent that new construction requires new facilities. It is the legislative intent to transfer to the new users of the district's services a fair share of the costs that they impose on the district for new facilities.

(2) The district may impose impact fees on new construction within the district. The board of commissioners shall set the amount of such fees by resolution.

(3) A person may not obtain a certificate of occupancy for new residential dwelling units or new commercial or industrial structures within the district, or obtain construction plan approval for a new mobile home develop-

(4) The impact fees collected by the district pursuant to this section shall be kept separate from other revenue of the district and shall be used exclusively for the acquisition, purchase, or construction of new facilities or portions thereof required to provide the services of the district to new construction. "New facilities" means buildings and capital equipment, including, but not limited to, fire vehicles and radio-telemetry equipment. Such fees may not be used for the acquisition, purchase, or construction of facilities which must be obtained in any event, regardless of growth within the district. The board of commissioners shall maintain adequate records to ensure that impact fees are expended only for permissible new facilities.

Section 13. The district's planning requirements shall be as set forth in this act, chapters 189 and 191, Florida Statutes, and other applicable general or special laws, as they may be amended from time to time.

Section 16. The procedures and requirements governing the issuance of bonds, notes, and other evidence of indebtedness by the district shall be as set forth in this act, chapter 191, Florida Statutes, and any other applicable general or special law, as they may be amended from time to time.

Section 4. This act shall be construed as remedial and shall be liberally construed to promote the purpose for which it is intended.

Section 5. In the event any section or provision of this act is determined to be invalid or unenforceable, such determination shall not affect the validity of or enforceability of each other section and provision of this act.
