(3) When there is evidence that an inmate, while in the custody of the department, has engaged in behavior which places the inmate at a high risk of transmitting or contracting a human immunodeficiency disorder or other communicable disease, the department may begin a testing program which is consistent with guidelines of the Centers for Disease Control and Prevention and recommendations of the Correctional Medical Authority. For purposes of this subsection, “high-risk behavior” includes:

(7) The results of a test under subsections (5) and (6) are inadmissible against the person tested in any federal or state civil or criminal case or proceeding.

Such rules shall require that the results of any tests are communicated only to a person requesting the test and the inmate tested. Such rules shall also provide for procedures designed to protect the privacy of a person requesting that the test be performed and the privacy of the inmate tested.

~~(9)~~(5) The department shall establish policies consistent with guidelines of the Centers for Disease Control and Prevention and recommendations of the Correctional Medical Authority on the housing, physical contact, dining, recreation, and exercise hours or locations for inmates with immunodeficiency disorders as are medically indicated and consistent with the proper operation of its facilities.
