PUBLIC SCHOOLS, DIVISION OF

PROGRAM: STATE GRANTS/K-12 PROGRAM - FEFP

The calculations of the Florida Education Finance Program (FEFP) for the 2005-2006 fiscal year are incorporated by reference in the act implementing the 2005-2006 General Appropriations Act. The calculations are the basis for the appropriations made in the General Appropriations Act.

73	AID TO LOCAL GOVERNMENTS GRANTS AND AIDS - FLORIDA EDUCATIONAL FINANCE PROGRAM FROM GENERAL REVENUE FUND	6651,330,138	
	FROM PRINCIPAL STATE SCHOOL TRUST FUND		72,186,968

Funds provided in Specific Appropriation 73 shall be allocated using a base student allocation of \$3,742.42 for the FEFP.

From the funds in Specific Appropriation 73, charter schools shall be provided an allocation pursuant to section 1002.33(17), Florida Statutes. However, for those charter schools that were in operation prior to July 1, 1999, funds per student shall be no less than they received in Fiscal Year 1998-1999.

From the funds provided in Specific Appropriation 73, all juvenile justice students in juvenile justice educational programs shall receive no less than the funds per student in Fiscal Year 1998-1999.

A minimum guaranteed level of funding shall be calculated to provide each school district a 1.0 percent increase per unweighted full-time

SECTION 2 - EDUCATION (ALL OTHER FUNDS)

equivalent student over the amount per unweighted full-time equivalent student funded in the 2004-2005 FEFP. The calculation of this minimum funding shall compare total state and local formula and categorical funds, discretionary lottery, and actual discretionary local revenue for 2004-2005 with total state and local formula and categorical funds, discretionary lottery, and maximum potential discretionary local revenue for 2005-2006 and shall include the additional funds required for the increased Florida Retirement System contribution. Funds for the School Recognition Program shall not be included in the calculation of the Minimum Guarantee.

The district cost differential (DCD) for each district shall be calculated pursuant to the provisions of section 1011.62(2), Florida Statutes.

From the funds provided in Specific Appropriation 73, \$35,000,000 is provided for the Sparsity Supplement as defined in section 1011.62(6), Florida Statutes, for school districts of 20,000 and fewer FTE in 2005-2006. Distribution of Sparsity Supplement funds provided for the Flagler County School District is contingent upon the construction of the new high school being totally completed, officially accepted for occupancy, and having an enrollment of high school students large enough to support a fully functioning high school instructional program not later than the opening day of school for the 2005-2006 school year. The Department of Education shall visit the district and verify that the school meets all requirements to be designated as an operating high school center for the 2005-2006 school year. If these requirements are not met, the Sparsity funds provided for the Flagler County School District in this appropriation shall be reallocated to the other Sparsity-eligible districts at the time of the third calculation of the FEFP.

Total required local effort for 2005-2006 shall be \$6,262,823,920. The total amount shall include adjustments made for the calculation required in sections 1011.62(4)(a) and (c), Florida Statutes. The maximum nonvoted discretionary millage which may be levied pursuant to the provisions of section 1011.71(1), Florida Statutes, by district school boards in 2005-2006 shall be:

- 1) 0.51 mills, and
- 2) An additional levy, not to exceed 0.25 mills, that will raise an amount not to exceed \$100 per full-time equivalent student (FTE).

District school boards that levy the entire additional 0.25 mills and raise less than \$100 per K-12 FTE shall receive, from the funds provided in Specific Appropriation 73, an amount that, combined with funds raised by the 0.25 mills, will provide \$100 per K-12 FTE. To be eligible for state funds provided in this paragraph, a district must levy the full 0.25 mills and the full 0.51 mills.

In addition, if a school board's 0.51 mill levy provides funds per unweighted FTE that are less than \$200, the school district shall receive an amount from the funds provided in Specific Appropriation 73, which, when added to the funds generated by the district's 0.51 mill levy, is equivalent to \$200.

Funds provided in Specific Appropriation 73 are based upon program cost factors for 2005-2006 as follows:

1. Basic Programs	
A. K-3 Basic.....	1.018
B. 4-8 Basic.....	1.000
C. 9-12 Basic.....	1.113
2. Programs for Exceptional Students	
A. Support Level 4.....	3.818
B. Support Level 5.....	5.190
3. English for Speakers of Other Languages	1.318
4. Programs for Grades 9-12	
Career Education.....	1.193

From the funds in Specific Appropriation 73, \$1,030,409,927 is provided to school districts as an Exceptional Student Education (ESE) Guaranteed Allocation to provide educational programs and services for

SECTION 2 - EDUCATION (ALL OTHER FUNDS)

exceptional students. The ESE Guaranteed Allocation funds are provided in addition to the funds for each exceptional student in the per FTE student calculation. Each district's ESE Guaranteed Allocation for the 2005-2006 appropriation shall not be recalculated during the school year. School districts that have provided educational services in 2004-2005 for exceptional students who are residents of other districts shall not discontinue providing such services without the prior approval of the Department of Education. Expenditure requirements for the ESE Guaranteed Allocation shall be as prescribed in section 1010.20 (3), Florida Statutes, for programs for exceptional students.

From the funds provided in Specific Appropriation 73, the value of 43.35 weighted FTE students is provided to supplement the funding for severely handicapped students served in ESE programs 254 and 255 when a school district has less than 10,000 FTE student enrollment and less than 3 FTE eligible students per program. The Commissioner of Education shall allocate the value of the supplemental FTE based on documented evidence of the difference in the cost of the service and the amount of funds received in the district's FEFP allocations for the students being served. The supplemental value shall not exceed 3 FTE.

A student in cooperative education or other types of programs incorporating on-the-job training shall not be counted for more than twenty-five (25) hours per week of membership in all programs when calculating full-time student membership, as provided in section 1011.61, Florida Statutes, for funding pursuant to section 1011.62, Florida Statutes.

From the funds in Specific Appropriation 73, \$75,350,000 is provided for Safe Schools activities and shall be allocated as follows: \$50,000 shall be distributed to each district, and the remaining balance shall be allocated as follows: two-thirds based on the latest official Florida Crime Index provided by the Department of Law Enforcement and one-third based on each district's share of the state's total unweighted student enrollment. Safe Schools activities include: (1) after school programs for middle school students; (2) other improvements to enhance the learning environment, including implementation of conflict resolution strategies; (3) alternative school programs for adjudicated youth; and (4) other improvements to make the school a safe place to learn. Each district shall determine, based on a review of its existing programs and priorities, how much of its total allocation to use for each authorized Safe Schools activity.

From the funds in Specific Appropriation 73, \$670,341,490 is for Supplemental Academic Instruction to be provided throughout the school year pursuant to section 1011.62(1)(f), Florida Statutes. First priority for use of these funds shall be the provision of supplemental intensive instruction, consistent with the Sunshine State Standards, including summer school and intensive English immersion instruction, for students in grades 3 and 10 who scored FCAT Level I. Each district's Supplemental Academic Instruction allocation for the 2005-2006 appropriation shall not be recalculated during the school year.

From the funds in Specific Appropriation 73, \$89,000,000 is provided for a K-12 comprehensive, district-wide system of research-based reading instruction. The amount of \$50,000 shall be allocated to each district and the remaining balance shall be allocated based on each district's proportion of the state total K-12 base funding. By July 1, 2005, districts shall submit a plan in a format prescribed by the Department of Education's Just Read, Florida! Office. Upon approval of a district's plan by the Just Read, Florida! Office, the department shall release the district's allocation of these funds.

Districts may charge a fee for grades K-12 voluntary, non-credit summer school enrollment in basic program courses. The amount of any student's fee shall be based on the student's ability to pay and the student's financial need as determined by district school board policy.

No funds are provided in Specific Appropriation 73 for charter school FTE student enrollment for on-line instruction received by students principally in their own homes. However, charter schools may serve students who are temporarily homebound or who receive a portion of their instruction on-line.

Funds in Specific Appropriation 73 for dual enrollment instruction of public school students provided at the Daytona Beach Advanced Technology Center shall be provided in an amount equal to the hours of instruction which would be necessary to earn the FTE and the funding for

SECTION 2 - EDUCATION (ALL OTHER FUNDS)

an equivalent course if it were taught in the school district.

The expenditure of tuition and fee revenues from local accounts by each university shall not exceed the authority provided by these specific appropriations, unless approved pursuant to the provisions of chapter 216, Florida Statutes. If a court of competent jurisdiction finds that the restriction above is invalid, the appropriation made by section 1011.4106, Florida Statutes, is hereby repealed for the 2005-2006 fiscal year and the moneys described in that section shall be deposited in the state treasury for expenditure only pursuant to appropriations made by law.

From the funds provided in Specific Appropriations 146 and 148, each university may shift enrollment by level in a manner which is revenue neutral, but shall not increase the number of lower level FTEs. For planning and enrollment shifting purposes, the University of South Florida may combine lower, upper, and graduate FTE identified in Specific Appropriations 146 and 148.

The Chancellor of the Board of Governors shall submit a revised 5-year state university enrollment plan by lower, upper, graduate I and graduate II levels, by university, to the Florida Board of Governors by September 1, 2005. This revised 5-year enrollment plan must be developed with input from each state university. The State Board of Education shall include funding recommendations in its Fiscal Year 2006-2007 Legislative Budget Request to implement the revised 5-year state university enrollment plan.

The enrollment policy adopted by the Legislature does not limit the number of students admitted from out-of-state under the profile admissions policy; however, no state university may receive general revenue funding associated with the enrollment of out-of-state students admitted under this policy. For the purposes of implementing this policy, the Chancellor shall segregate these FTEs and not count them toward the 2005-2006 enrollment plan for the State University System.

The maximum resident undergraduate tuition per credit hour is hereby established for the 2005-2006 fiscal year as follows:

	2005	2005-2006
	Summer Term	Fall/Spring Terms
Lower Level Coursework	\$ 68.16	\$ 71.57
Upper Level Coursework	\$ 68.16	\$ 71.57

Except as otherwise provided by law, each board of trustees shall set university tuition and fees for graduate, graduate professional, and nonresident students. Tuition and fees for graduate, graduate professional, and nonresident students may not exceed the average full-time tuition and fees for corresponding programs at public institutions that are members of the Association of American Universities. The annual percentage increase in tuition and fees established by each board of trustees pursuant to this paragraph for students enrolled prior to the fall of 2005 shall not exceed five percent.

Each university board of trustees is authorized to waive tuition and out-of-state fees for purposes which support and enhance the mission of the university. All fee waivers must be based on policies which are adopted by university boards of trustees. Each university shall report the purpose, number and value of all fee waivers granted annually in a format which shall be prescribed and reviewed by the Florida Board of Governors.

Funds provided in Specific Appropriation 146 for the University of Florida include no more than that amount which the State Board of Education and the City of Gainesville agree represents the cost of service for water provided by the city to the University of Florida. The amount charged shall reflect a cost-based rate only and shall be

SECTION 2 - EDUCATION (ALL OTHER FUNDS)

determined through a cost of service study completed annually by the city and reviewed by the university. The costs of any General Fund transfer to the City of Gainesville from Gainesville Regional Utilities or any profit to the city or utility shall be specifically excluded as costs allocable to the university. The cost-based rate shall include charges for only those water services actually provided by the city to the university and shall not include charges for services furnished by the university.

In order to provide New College and USF Sarasota/Manatee with sufficient up-front operating capital to support shared services functions and to eliminate the significant current accounting inefficiencies, a total of \$5,000,000 from the funds in Specific Appropriation 146 shall be released in equal amounts to New College and USF/USF Sarasota-Manatee as part of the first cash distribution in the fiscal year. The remaining appropriated funds for these two institutions shall be distributed in accordance with normal release protocol, beginning with the first cash distribution in the fiscal year. New College and USF/USF Sarasota-Manatee are authorized to make lump sum budget transfers between the two institutions, as appropriate, to facilitate management of shared services.

income.

From the funds in Specific Appropriation 190, \$822,200 from the Grants and Donations Trust Fund and \$1,177,800 from the Medical Care Trust Fund are for special Medicaid payments to specialty pediatric facilities. To qualify for a special Medicaid payment under this section a hospital must be licensed as a children's specialty hospital and its combined Medicaid managed care and fee for service days as a percentage to total inpatient days equals or exceeds 30 percent. The agency shall use the 2003 Financial Hospital Uniform Reporting System (FHURS) data to determine the combined Medicaid managed care and fee-for-service days. The total special Medicaid payments made shall be distributed equally to the qualifying hospitals.

From the funds in Specific Appropriation 190, \$10,862,174 from the Grants and Donations Trust Fund and \$15,560,044 from the Medical Care Trust Fund are provided to eliminate the inpatient reimbursement ceilings for hospitals whose charity care and Medicaid days, as a percentage of total adjusted hospital days, equal or exceed 11 percent. For State Fiscal Year 2005-2006 hospitals that qualify under this provision will only receive 50 percent of the amount available based on eliminating the inpatient reimbursement ceilings, except any public hospital that meets the 11 percent threshold using the average of the 1999, 2000 and 2001 audited DSH data will receive 92 percent of the amount available based on eliminating the inpatient reimbursement ceilings. If the prescribed three years of audited DSH data is not available for the public hospital, the agency shall use the average of the 1999, 2000 and 2001 audited DSH data that is available for the public hospital. However, these hospitals may receive up to the full amount available provided there is an increase in the available public hospital upper payment limit balance as described in the proviso language below. The agency shall use the average of the 1999, 2000 and 2001 audited DSH data available as of March 1, 2005. In the event the agency does not have the prescribed three years of audited DSH data for a hospital, the agency will use the average of the audited DSH data for 1999, 2000, and 2001 that are available. Any hospital that met the 11 percent threshold in State Fiscal Year 2004-2005 and was also exempt from the inpatient reimbursement ceilings shall remain exempt from the inpatient reimbursement ceilings for State Fiscal Year 2005-2006, subject to the payment limitations imposed in this paragraph.

From the funds in Specific Appropriation 190, \$589,536 from the Grants and Donation Trust Fund and \$844,510 from the Medical Care Trust Fund are provided to eliminate the inpatient reimbursement ceilings for hospitals that have a minimum of ten licensed Level II Neonatal Intensive Care Beds and are located in Trauma Services Area 2. For State Fiscal Year 2005-2006, hospitals that qualify under this provision will only receive 50 percent of the amount available based on eliminating the inpatient reimbursement ceilings. However, these hospitals may receive up to the full amount available provided there is an increase in the available public hospital upper payment limit balance as described in the proviso language below.

From the funds in Specific Appropriation 190, \$21,516,884 from the Grants and Donations Trust Fund and \$30,822,897 from the Medical Care Trust Fund are provided to eliminate the inpatient hospital reimbursement ceilings for hospitals whose Medicaid days as a percentage of total hospital days exceed 7.3 percent, and are designated or provisional trauma centers. This provision shall apply to all hospitals that are a designated or provisional trauma center on July 1, 2005 and any hospitals that become a designated or provisional trauma center during State Fiscal Year 2005-2006. For State Fiscal Year 2005-2006, hospitals that qualify under this provision will only receive 92 percent of the amount available based on eliminating the inpatient reimbursement ceilings. However, these hospitals may receive up to the full amount available provided there is an increase in the available public hospital upper payment limit balance as described in the proviso language below. The agency shall use the average of the 1999, 2000 and 2001 audited DSH data available as of March 1, 2005. In the event the agency does not have the prescribed three years of audited DSH data for a hospital, the agency will use the average of the audited DSH data for 1999, 2000 and 2001 that are available.

From the funds in Specific Appropriation 190, \$43,617,052 from the Grants and Donations Trust Fund and \$62,481,348 from the Medical Care Trust Fund are provided to make special Medicaid payments to hospitals that serve as a safety net in providing emergency, specialized pediatric trauma services and inpatient hospital care to low-income individuals.

For State Fiscal Year 2005-2006 hospitals that qualify under this provision will only receive 92 percent of the amount available based on eliminating the inpatient reimbursement ceilings. However, these hospitals may receive up to the full amount available provided there is an increase in the available public hospital upper payment limit balance as described in the proviso language below.

From the funds in Specific Appropriation 190, \$20,594,860 from the Grants and Donations Trust Fund and \$29,502,101 from the Medical Care Trust Fund are provided to restore the reductions in the inpatient payments to hospitals, resulting from the projected deficit in the available public hospital upper payment limit balance. of three of the following designated tertiary services as regulated under the certificate of need program: pediatric bone marrow transplantation, pediatric open heart surgery, pediatric cardiac catheterization and pediatric heart transplantation, trauma centers where their Medicaid days as a percentage to total hospital days equals or exceeds 7.3 percent, hospitals whose Medicaid and charity care days as a percentage to total adjusted hospital days equals or exceeds 11 percent and hospitals with a minimum of ten licensed level II Neonatal Intensive Care Units located in Trauma Services Area 2. The restoration of the inpatient rates is contingent on new cost report data providing for an increase in the amount of public hospital upper payment limit for State Fiscal Year 2005-2006. Any allowable growth in the public hospital upper payment limit balance will first be used to restore the loss in inpatient rates experienced by Jackson Memorial Hospital. Upon the loss by Jackson Memorial Hospital being restored any remaining growth in the public upper payment limit balance will be applied to the remaining hospitals in the same proportion as their rate reduction. The agency will work with the Disproportionate Share Council to determine the methodology to restore the inpatient rates.

From the funds in Specific Appropriation 190, \$3,000,000 from the Grants and Donations Trust Fund and \$4,297,495 from the Medical Care Trust Fund are provided to make special Medicaid payments to hospitals. These payments may be used, in collaboration with the Department of Health, to provide funding for hospitals supporting primary care services in medically underserved areas.

The program shall be designed to permit limits on services, prior authorization of services, and selective provider enrollment. The program must also include monitoring and quality assurance, as well as discharge planning and continuing stay reviews, of all children admitted to the program. The funding is contingent upon the availability of state matching funds in the Department of Children and Family Services in Specific Appropriations 299 and 335.

From the funds in Specific Appropriation 190, the Agency for Health Care Administration, within existing resources, may contract with an integrative medical management provider to develop and implement a pilot integrated therapies program to improve the quality of care and cost-effectiveness of the MediPass disease management initiative. The disease management model may use the best practices of conventional and complementary and alternative medicine. The demonstration project shall be for three years from the date of implementation. The agency is authorized to seek federal Medicaid waivers and any state plan amendment necessary to implement this program. The agency shall report annually to the Executive Office of the Governor, the chair of the Senate Ways and Means Committee, and the chair of the House Fiscal Council as to the cost-effectiveness of the pilot. The agency shall implement a recurring methodology in the Title XIX Inpatient Hospital Reimbursement Plan that may include, but is not limited to, the inflation factor, variable cost target, county rate ceiling, county ceiling target rate or rate for fixed costs to achieve the cost savings.

hospital that meets the 11 percent threshold using an average of the 1999, 2000 & 2001 audited DSH data that is available shall not receive a reduction in the amount of their payments as a result of eliminating the outpatient reimbursement ceilings. However, these hospitals may receive up to the full amount available provided there is an increase in the available public hospital upper payment limit balance as described in the proviso language below. The agency shall use the average of the 1999, 2000 and 2001 audited DSH data available as of March 1, 2005. In the event the agency does not have the prescribed three years of audited DSH data for a hospital, the agency will use the average of the audited DSH data for 1999, 2000 and 2001 that are available. Any hospital that met the 11 percent threshold in State Fiscal Year 2004-2005 and was also exempt from the outpatient reimbursement ceilings shall remain exempt from the outpatient reimbursement ceilings for State Fiscal Year 2005-2006, subject to the payment limitations imposed in this paragraph.

Medicaid recipients, where the public hospital assumed the fiscal and operating responsibilities for one or more primary care centers previously operated by the Florida Department of Health or the local county government. Any payments made to public hospitals because of this change will be contingent on the state share being provided through grants and donations from counties, local governments, districts or taxing authorities.

From the funds in Specific Appropriation 194, \$1,860,926 from the Grants and Donations Trust Fund and \$2,665,774 from the Medical Care Trust Fund are provided to restore the reductions in the outpatient payments to hospitals, resulting from the projected deficit in the available public hospital upper payment limit balance. SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

SPECIFIC APPROPRIATION

The monies contained herein are appropriated from the named funds to the Department of Corrections, Florida Department of Law Enforcement, Department of Juvenile Justice, Parole Commission, Department of Legal Affairs/Attorney General and Justice Administration as the amounts to be used to pay salaries, other operational expenditures and fixed capital outlay of the named agencies.

The Office of Program Policy and Governmental Accountability (OPPAGA) shall conduct a comprehensive review of the Department of Law Enforcement and the Parole Commission. OPPAGA shall examine each department's mission and purpose, scope of services, and programs delivered to identify programs or services that fall outside the department's mission, or programs or services that should more appropriately be delivered within another state agency or local entity. OPPAGA shall make recommendations on appropriate transfers of existing Parole Commission activities in the event that the Parole Commission is abolished. In the course of the review, OPPAGA shall identify and report on specific organizational or programmatic deficiencies that diminish agency efficiency or effectiveness. The review shall include an examination of agency personnel deficiencies using pay scales, salaries, and benefits data. An assessment of all staffing levels within the departments shall be conducted to ensure levels are appropriate in fulfilling the department's statutory mission. The departments shall provide sufficient data to OPPAGA to conduct these studies. OPPAGA shall submit a report to the chair of the Senate Ways and Means Committee and the chair of the House Fiscal Council by January 1, 2006.

CORRECTIONS, DEPARTMENT OF

From the funds in Specific Appropriations 653 through 827, each provider contracting with the Department of Corrections must provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents must include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate successful compliance with the performance measures described in the contract.

The Department of Corrections shall develop and use a uniform format and uniform methodologies for the purpose of reporting annually to the Legislature on the state prison system. Such reports shall include a comprehensive plan for current facility use and any departures from planned facility use, including opening new facilities, renovating or closing existing facilities, and advancing or delaying the opening of new or renovated facilities. The report shall include the maximum capacity of currently operating facilities and the potential maximum capacity of facilities that the department could make operational within the fiscal year. The report shall also identify appropriate sites for future facilities and provide information to support specified locations, such as availability of personnel in local labor markets. Reports should include updated infrastructure needs for existing or future facilities. Each report should reconcile capacity figures to the immediate preceding report. For the purpose of this paragraph, maximum capacity shall be calculated and displayed pursuant to 944.023(1)(b). The department may provide additional analysis of current and future bed needs based on such factors as deemed necessary by the Secretary. The next report shall be due January 1, 2006.

From the funds provided in Specific Appropriations 676, 688, and 698, a total of \$1,074,362 is provided as payment in lieu of ad valorem taxation for distribution to local government taxing authorities in accordance with section 957.04(8), Florida Statutes. It is the intent of the Legislature that the administration and delivery of workforce services and programs that are currently provided by agency employees working in One Stop Career Centers operated by the Regional Workforce Boards may be transferred from the Agency for Workforce Innovation to the Regional Workforce Boards. Such transfers shall only occur if the agency determines that the Regional Workforce Boards would more effectively and efficiently deliver services and if such transfers comply with applicable federal regulations. If the agency finds that any project or initiative for which funds are specifically appropriated in this act is not an allowable use of federal funds, the agency shall notify the Executive Office of the Governor, the chair of the Senate Ways and Means Committee and the chair of the House Fiscal Council.

The department shall submit reports on a quarterly basis to the Executive Office of the Governor, the chair of the Senate Ways and Means Committee, the chair of the House Fiscal Council, the Senate Regulated Industry Committee, the House Business Regulation Committee, and the Office of Program Policy Analysis and Government Accountability related to its responsibilities defined in section 718.501, Florida Statutes. Statutes; the number and percent of investigations acted upon within 90 days as required by section 718.501(1)(m), Florida Statutes; and the number of investigations that are continuing in excess of the 90-day requirement with reasons that cases required more than 90 days to close.

The department shall monitor caseloads, timeliness of responses to complaints and investigations, and prepare an analysis of the resources and staffing required by the Division of Land Sales, Condominiums, and Mobile Homes to maintain compliance with the requirements of section 718.501, Florida Statutes. In addition, the department shall evaluate core business processes associated with the complaint handling, in order to determine improvements in response time and efficiencies in the complaint review process.

In addition, the department shall evaluate non-jurisdictional complaints to determine if any categories of complaints warrant statutory changes providing additional authority for resolution. The department shall include any recommendations for making such statutory changes in its quarterly reports.

If the department determines that the workload justifies additional staffing, it shall request, through the Executive Office of the Governor, pursuant to section 216.181, Florida Statutes, authorization to release justified positions, associated salary rate, and appropriated funds.

From the funds in Specific Appropriations 2273, 2275, 2276, and 2278, six positions and \$444,029 are provided for the Office of the Condominium Ombudsman. voter education: mailing or publishing sample ballots; conducting activities pursuant to the Standards for Nonpartisan Voter Education as provided in Rule 1S-2.033, F.A.C.; print, radio, or television advertising to voters; and other innovative voter education programs, as approved by the Department of State. No supervisor of elections shall receive any funds until the supervisor of elections provides to the Department of State a detailed description of the voter-education programs, such as those described above, to be implemented.

The department shall distribute an amount to each eligible county supervisor equal to the funding level per voter multiplied by the number of registered voters in the county for the 2004 General Election. The department shall determine the funding level per voter based on the number of registered voters in the state for the 2004 General Election.

In order for a county supervisor of elections to be eligible to receive state funding for voter education, the county must certify to the Division of Elections that the county will provide matching funds for voter education in the amount equal to fifteen percent of the amount to be received from the state. Additionally, to be eligible, a county must segregate state voter education distributions and required county matching dollars in a separate account established to hold only such funds. Funds in this account must be used only for the activities for which the funds were received. Any funds remaining in the fund at the end of the fiscal year shall remain in the account to be used for the same purposes for subsequent years or until such funds are expended.

SECTION 8. COMPENSATION AND BENEFITS - Fiscal Year 2005-2006

Statement of Purpose

This section provides instructions for implementing the Fiscal Year 2005-2006 salary and benefit increases provided in Specific Appropriation 2086. All allocations and distributions of these funds are to be made in strict accordance with the provisions of this act. For the purpose of calculating and distributing allocations to agencies, all references to "base salary" in this section refer to the base rate of pay as of July 1, 2004, modified to include the 2004-2005 fiscal year appropriated salary increases. References to "eligible" employees refer to employees who are, at a minimum, meeting their required performance standards. If an ineligible employee achieves performance standards subsequent to the salary increase implementation date but on or before the end of the fiscal year, the employee may receive an increase; however, such increase shall be effective on the date the employee becomes eligible but not retroactively.

Pay Grade Adjustments

It is the intent of the Legislature that, effective August 1, 2005, the minimums for each pay grade and pay band shall be increased by 2.0 percent and the maximums for each pay grade and pay band shall be increased by 5.0 percent. After the maximum of the pay grade or pay band is increased, if an employee's base rate of pay is equal to or greater than the adjusted maximum of the employee's pay grade and pay band, the employee will be granted a one-time, lump-sum payment in lieu of an increase to the employee's base rate of pay. When an employee's base rate of pay is less than the adjusted maximum of the employee's pay grade or pay band and the increase to the base rate of pay will be greater than the adjusted maximum, the employee's salary will be increased to the adjusted maximum and the portion of the increase that exceeds the adjusted maximum shall be granted instead in a one-time lump-sum payment.
