From funds provided in Specific Appropriations 6 and 68, \$31,895,373 is provided for the Teachers Lead Program and shall be given to teachers pursuant to section 1012.71, Florida Statutes. The allocation shall not be recalculated during the school year.

Funds provided in Specific Appropriations 6 and 68 for the virtual education contribution shall be allocated pursuant to the formula provided in section 1011.62(11), Florida Statutes. The contribution shall be based on \$4,800 per FTE.

Districts may charge a fee for grades K-12 voluntary, non-credit summer school enrollment in basic program courses. The amount of any student's fee shall be based on the student's ability to pay and the student's financial need as determined by district school board policy.

Unless otherwise provided by law, no funds are provided in Specific Appropriations 6 and 68 for charter school FTE student enrollment for on-line instruction received by students principally in their own homes. However, charter schools may serve students who are temporarily homebound or who receive a portion of their instruction on-line.

From the funds in Specific Appropriations 6 and 68, school districts may execute an appropriate contract for full-time virtual instruction through K-8 virtual schools that received funds from Specific Appropriation 93 of chapter 2008-152, Laws of Florida. School districts may expend funds in the amount of \$4,800 per student for each student who was enrolled and served during the 2010-2011 fiscal year and who is re-enrolled and eligible to be served during the 2011-2012 fiscal year. Each of the K-8 virtual schools shall provide to the Department of Education the name and address of each student who was enrolled and served during the 2010-2011 fiscal year and who is re-enrolled and is eligible to be served during the 2011-2012 fiscal year. The department shall verify the eligibility of the students, assist with placement of each student in a school district virtual instruction program regardless of the student's district of residence, and assist the school district with executing an appropriate contract with an approved K-8 virtual school for payment for virtual instruction for each student. The maximum number of students to be funded pursuant to this provision is the number being served in 2010-2011.

The funds provided in Specific Appropriations 119 through 125 from the Education and General Student and Other Fees Trust Fund are the only budget authority provided in this act for the 2011-2012 fiscal year to the named universities to expend tuition and fees that are collected during the 2011-2012 fiscal year and carried forward from the prior fiscal year and that are appropriated into local accounts pursuant to section 1011.4106, Florida Statutes. The expenditure of tuition and fee revenues from local accounts by each university shall not exceed the authority provided by these specific appropriations, unless approved pursuant to the provisions of chapter 216, Florida Statutes. If a court of competent jurisdiction finds that the restriction above is invalid, the appropriation made by section 1011.4106, Florida Statutes, is hereby repealed for the 2011-2012 fiscal year and the moneys described in that section shall be deposited in the state treasury for expenditure only pursuant to appropriations made by law.

General revenue funds provided in Specific Appropriations 119 through 125 to each of the named universities are contingent upon each university complying with the tuition and fee policies established in the proviso language attached to Specific Appropriation 119, and with the tuition and fee policies for state universities included in Part II of chapter 1009, Florida Statutes. If any board reduces individual programs or projects within the university by more than 10 percent during the 2011-2012 fiscal year, written notification shall be made to the Executive Office of the Governor, the President of the Senate, the Speaker of the House of Representatives, and the Board of Governors.

The payments under this proviso are contingent on the state share being provided through grants and donations from state, county, or other governmental funds. The agency shall not include the funds described in this paragraph for the buy back of reductions to inpatient hospital rates in the calculation of capitation rates for Health Maintenance Organizations unless the nonfederal share is provided through grants and donations from state, county or other governmental funds. Medicaid Supplemental Hospital Funding Programs for Medicaid Low Income Pool, Disproportionate Share Hospital, and Hospital Exemptions Programs for the 2011-2012 fiscal year are incorporated by reference in SB 2002. The calculations are the basis for the appropriations made in the General Appropriations Act.

From the funds in Specific Appropriation 179, the agency is authorized to transfer a hospital's low-income pool payments between the various low-income programs listed in this specific appropriation if it is required to obtain approval of the low-income pool payment methodology from the Centers for Medicare and Medicaid Services. Any transfer of funds, however, is contingent on the hospital's net low-income pool payments under the low-income pool plan remaining unchanged.

From the funds in Specific Appropriation 179, in the event that the amount of approved nonfederal share of matching funds is not provided by local governmental entities, the agency may re-allocate low-income pool funds between programs described within this specific appropriation as necessary to ensure sufficient nonfederal matching funds. No re-allocation, under this provision, of low-income pool funds may occur if the level of program increase for any provider access system exceeds the amount of the additional increases in the local nonfederal share match that their local governments transfer to the state Medicaid program, and for which the provider access system would have otherwise received.

From the funds in Specific Appropriation 179, the agency may make low-income pool Medicaid payments to hospitals in an accelerated manner that is more frequent than on a quarterly basis subject to the availability of state, local and federal funds.

Funds provided in Specific Appropriation 179, are contingent upon the nonfederal share being provided through grants and donations from state, county or other governmental funds. In the event the nonfederal share provided through grants and donations is not available to fund the Medicaid low-income payments for eligible Medicaid providers, known as provider access systems, the agency shall submit a revised low-income pool plan to the Legislative Budget Commission for approval. Distribution of such funds provided in Specific Appropriation 179 is contingent upon approval from the Centers for Medicare and Medicaid Services.

Freestanding dialysis facilities may obtain, administer and submit claims directly to the Medicaid program for End-Stage Renal Disease pharmaceuticals subject to coverage and limitations policy. All pharmaceutical claims for this purpose must include National Drug Codes (NDC) to permit the invoicing for federal and/or state supplemental rebates from manufacturers. Claims for drug products that do not include National Drug Code information are not payable by Florida Medicaid unless the drug product is exempt from federal rebate requirements.

From the funds in Specific Appropriation 180, the Agency for Health Care Administration shall work with dialysis providers, managed care organizations, and physicians to ensure that all Medicaid patients with End Stage Renal Disease (ESRD) are educated and assessed by their physician and dialysis provider to determine their suitability for peritoneal dialysis (PD) as a modality choice. Further, the agency shall consult with the dialysis community concerning suitable voluntary reporting to the state Medicaid program on members' PD suitability.

Funds in Specific Appropriation 182 reflect a reduction of \$26,892,230 from the General Revenue Fund, \$34,143,215 from the Medical Care Trust Fund, and \$93,292 from the Refugee Assistance Trust Fund as a result of implementing a reduction in outpatient hospital reimbursement rates. The agency shall implement a recurring methodology in the Title XIX Outpatient Hospital Reimbursement Plan to achieve this reduction. In establishing rates through the normal process, prior to including this reduction, if the unit cost is equal to or less than the unit cost used in establishing the budget, then no additional reduction in rates is necessary. In establishing rates through the normal process, prior to including this reduction, if the unit cost is greater than the unit cost used in establishing the budget, then rates shall be reduced by an amount required to achieve this reduction, but shall not be reduced below the unit cost used in establishing the budget. In establishing rates through the normal process, prior to including this reduction, if the unit cost is greater than the unit cost used in establishing the budget, then rates shall be reduced by an amount required to achieve this reduction, but shall not be reduced below the unit cost used in establishing the budget.

Funds provided for the elimination of hospital outpatient ceilings in Specific Appropriation 182 are contingent upon the state share being provided through grants and donations from state, county or other governmental funds. The agency shall submit a revised hospital outpatient reimbursement plan to the Legislative Budget Commission for approval if the state share is not available to fund the removal of hospital outpatient ceilings or if the Centers for Medicare and Medicaid Services does not approve amendments to the Medicaid Hospital Outpatient Reimbursement Plan to eliminate the reimbursement ceilings for certain hospitals.

From the funds in Specific Appropriation 182, \$28,435,176 from the Grants and Donations Trust Fund and \$36,102,219 from the Medical Care Trust Fund are appropriated so that the agency may amend its current facility fees and physician services to allow for payments to hospitals providing primary care to low-income individuals and participating in the Primary Care Disproportionate Share Hospital (DSH) program in Fiscal Year 2003-2004 provided such hospital implements an emergency room diversion program so that non-emergent patients are triaged to lesser acute settings; or a public hospital assumed the fiscal and operating responsibilities for one or more primary care centers previously operated by the Florida Department of Health or the local county government. Any payments made to qualifying hospitals because of this change shall be contingent on the state share being provided through grants and donations from counties, local governments, public entities, or taxing districts, and federal matching funds. This provision shall be contingent upon federal approval of a state plan amendment.

Funds from Specific Appropriation 231 shall not be used for administrative costs.

Funds in Specific Appropriation 231 for developmental training programs shall require a 12.5 percent match from local sources. In-kind match is acceptable provided there are no reductions in the number of persons served or level of services provided.

Funds in Specific Appropriation 231 reflect a reduction of \$16,020,216 from the General Revenue Fund and \$20,339,784 from the Operations and Maintenance Trust Fund as a result of reducing provider rates by 4.0 percent, effective July 1, 2011. The agency shall amend provider contracts, cost plans and rules as necessary to achieve this recurring reduction.

Funds in Specific Appropriation 231 reflect a reduction of \$2,422,464 from the General Revenue Fund and \$4,463,448 from the Operations and Maintenance Trust Fund as a result of continuing the Tier Waiver individual cost plan freeze in effect on April 1, 2011, pursuant to s.339.0661(8), F.S., from July 1, 2011, through June 30, 2012; until the agency implements an approved plan that contains expanding costs within the waiver; or until all clients are transferred into the iBudget, whichever comes first.

From the funds in Specific Appropriation 231, the Agency for Persons with Disabilities shall provide to the Governor, the President of the Senate, and the Speaker of the House of Representatives monthly surplus-deficit reports projecting the total Medicaid Waiver program expenditures for the fiscal year along with any corrective action plans necessary to align program expenditures with annual appropriations in accordance with sections 393.0661 (7) and (8), Florida Statutes. Prior to the submission of the first report, the Social Services Estimating Conference shall approve the reporting format, as well as establish a baseline based on the appropriations contained herein. The adopted baseline shall serve as the sole basis of comparison for any projected surpluses or deficits reflected in the reports, and discrete adjustments shall be made with a separate entry showing each change.

From the funds in Specific Appropriation 231, the Agency for Persons with Disabilities shall work with the Agency for Health Care Administration and other stakeholders to develop a plan that will result in sufficient fiscal and operational controls to allow the Agency for Persons with Disabilities to manage Medicaid waiver spending within the legislative appropriation. The plan shall include, but not be limited to, increased oversight of individual cost plans; a clear definition of the roles of providers and waiver support coordinators in monitoring those cost plans; and a description of the services provided under each of the consolidated service titles or categories. The Agency for Persons with Disabilities shall submit the plan to the Governor, the President of the Senate, and the Speaker of the House of Representatives no later than September 1, 2011.

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

SPECIFIC
APPROPRIATION

The moneys contained herein are appropriated from the named funds to the Department of Corrections, Justice Administration, Department of Juvenile Justice, Florida Department of Law Enforcement, Department of Legal Affairs/Attorney General, and the Parole Commission as the amounts to be used to pay the salaries, other operational expenditures and fixed capital outlay of the named agencies.

CORRECTIONS, DEPARTMENT OF

From the funds in Specific Appropriations 570 through 759, each provider contracting with the Department of Corrections must provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents must include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate successful compliance with the performance measures described in the contract.

The Department of Corrections shall develop and use a uniform format and uniform methodologies for the purpose of reporting annually to the Governor and to the Legislature on the state prison system. Such reports shall include a comprehensive plan for current facility use and any departures from planned facility use, including opening new facilities, renovating or closing existing facilities, and advancing or delaying the opening of new or renovated facilities. The report shall include the maximum capacity of currently operating facilities and the potential maximum capacity of facilities that the department could make operational within the fiscal year. The report shall also identify appropriate sites for future facilities and provide information to support specified locations, such as availability of personnel in local labor markets. Reports should include updated infrastructure needs for existing or future facilities. Each report should reconcile capacity figures to the immediately preceding report. For the purpose of this paragraph, maximum capacity shall be calculated and displayed pursuant to section 944.023(1)(b), Florida Statutes. The department may provide additional analysis of current and future bed needs based on such factors as deemed necessary by the Secretary. The next report shall be due January 1, 2012.

From the funds in Specific Appropriations 570 through 759, the Department of Corrections shall, before closing, substantially reducing the use of, or changing the purpose of any state correctional institution as defined in section 944.02, Florida Statutes, submit its proposal to the Governor's Office of Policy and Budget and the chairs of the Senate Budget Committee and the House Appropriations Committee for review.

The department may transfer up to 1,200 beds to existing private prisons with available capacity if it determines that such transfers are in accordance with American Correctional Association and department standards, and would provide a cost savings of at least 7 percent.

Funds in Specific Appropriation 570 through 759 shall not be used to pay for unoccupied space currently being leased by the Department of Corrections in the event the leases are vacant on or after July 1, 2011, and for which it has been determined by the Secretary of the department that there is no longer a need.

From the funds in Specific Appropriations 570 through 759, the Department of Corrections shall issue a request for proposal, or multiple requests for proposal, as defined in section 287.057(1)(b), Florida Statutes, for the management and operation of the correctional facilities and assigned correctional units, including annexes, work camps, road prisons and work release centers currently operated by the Department of Corrections in Manatee, Hardee, Indian River, Okeechobee, Highlands, St. Lucie, DeSoto, Sarasota, Charlotte, Glades, Martin, Palm Beach, Hendry, Lee, Collier, Broward, Miami-Dade and Monroe counties, excluding Glades Correctional Institution and Hendry Correctional Institution. The request for proposal shall provide for a contract commencement date of no later than January 1, 2012.

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

At a minimum, the contract shall require adherence to all applicable federal, state and local laws, as well as all rules adopted by the Department of Corrections for private prison service providers. These facilities shall continue to operate at capacities set forth in section 944.023, Florida Statutes. Funds received for these institutions from canteens, subsistence payments, and any other participation accounts shall continue to be remitted to the General Revenue Fund. All activities regarding the classification of inmates will remain under the Department of Correction's supervision and direction as required by current law. Each facility's average daily population (ADP), as well as medical and psychological grade population percentages, shall remain substantially unchanged from the ADP calculated for Fiscal Year 2009-2010.

The contract between the Department of Corrections and the private provider must specify performance measures and levels of expected performance by the contracts for each performance measure to ensure contractor performance and accountability. The required performance measures shall include, but are not limited to: the number of batteries committed by inmates on one or more persons per 1,000 inmates; number of inmates receiving major disciplinary reports per 1,000 inmates; percentage of random inmate drug tests that are negative; percentage of reported criminal incidents investigated by the proper authorities; number of escapes from the secure perimeter of major institutions; percentage of inmates placed in a facility that provides at least one of the inmate's primary program needs; number of transition plans completed for inmates released from prison; number of release plans completed for inmates released from prison; percentage of release plans completed for inmates released from prison; percentage of inmates needing programs who successfully complete drug abuse education or treatment programs; number of inmates who are receiving substance abuse services; percentage of inmates completing mandatory literacy programs who score at or above 6th grade level on next Tests of Adult Basic Education; percentage of inmates who successfully complete mandatory literacy programs; percentage of inmates who successfully complete GED education programs; percentage of inmates needing special education programs who participate in special education (federal law) programs; percentage of inmates who successfully complete vocational education programs; average increase in grade level achieved by inmates participating in educational programs per 3-month instructional period; and percentage of inmates who successfully complete transition, rehabilitation, or support programs without subsequent recommitment to community supervision or prison for 24 months after release. The Department of Corrections shall provide quarterly reports to the chairs of the Senate Budget Committee and the House Appropriations Committee on the performance of the private prison provider under contract with the department using the required performance measures and other performance measures contained in the contracts. For work release centers, the required performance measures shall include, but are not limited to: percent employment of supervised individuals; illegal substance use by supervised individuals; victim restitution paid by supervised individuals; compliance with no contact orders by supervised individuals; number of serious incidents occurring at the facility; and the number of absconders.

The contract or contracts between the Department of Corrections and the private provider shall specifically require adherence to the requirements set forth in section 119.01, Florida Statutes, to ensure that any nongovernmental entity contracting with the Department of Corrections for the management and operations of correctional facilities and services shall have the same duty to release information about the management and operation of a correctional facility and services as a state agency managing and operating such a facility and services would have under section 119.01, Florida Statutes. The contract between the Department of Corrections and the private provider shall be required to adhere to the provisions provided in section 287.0571, Florida Statutes, regardless of any exemptions.

If after engaging in the competitive solicitation process, the Department of Corrections determines that the process has yielded responses that meet all current statutory requirements, the department shall develop and remit a transition plan and recommended revisions to its operating budget to the Legislative Budget Commission by December 1, 2011. The department also must submit a cost-benefit analysis which delineates the department's current costs of providing the services and the savings that would be generated by the transition plan yielding a minimum annual savings of 7 percent. Upon approval by the commission, the department may award the contract. Additional budget amendments may

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

be submitted during the 2011-2012 fiscal year as necessary for the proper alignment of budget and positions.

Funds in Specific Appropriations 570 through 759 reflect reductions in recurring general revenue funds in the amount of \$3,017,882 to accomplish the transition of 800 medium or close custody beds at an average per diem of \$53.34 to 800 contract residential substance abuse beds.

PROGRAM: SECURITY AND INSTITUTIONAL OPERATIONS

From the funds provided in Specific Appropriations 605, 616, and 628 a total of \$1,074,362 is provided as payment in lieu of ad valorem taxation for distribution to local government taxing authorities. Funding is provided as follows: \$269,324 for the Bay Correctional Facility, \$339,242 for the Moore Haven Correctional Facility, \$275,560 for the South Bay Correctional Facility, \$100,000 for the Gadsden Correctional Facility and \$90,236 for the Lake City Correctional Facility. These funds may not be distributed if there are outstanding claims for ad valorem taxes due on the property at issue and may not be distributed until the property is reclassified on the real property and tangible personal property rolls as Government State property back to the date the finance corporation or other state entity acquired the title thereto. These distributions shall be adjusted, with respect to any facility, to reimburse the Department of Corrections for the total amounts expended by the state in resisting the imposition of such ad valorem tax claims, including all attorneys' fees and costs actually incurred by the state's agencies.

From the funds in Specific Appropriations 605, 616, 628, 638A, 649A and 660A, the Department of Corrections must ensure all future private prison contracts have explicit conditions that provide for the flexibility to adjust the percentages of special needs inmates to allow for changes in overall state populations of those inmates. Such percentages must be based on Department of Corrections' special needs inmate population forecasts, so that medical and mental healthcare costs are appropriately shared by both private and state prisons. All future private prison contracts must require each private prison vendor to report the same performance measures for inmate programs in private prisons as reported by the Department of Corrections for its comparable public institutions. As part of the private prisons contracting negotiations process, the Department of Corrections must consult with each private prison vendor to establish high, reasonable, and achievable performance standards. All future private prison contracts must require each private prison vendor to develop inmate visitation policies and telephone rates for the private prisons that are consistent with those policies followed by the state's public prisons and encourage inmate family contact, as directed by Florida Statutes. Finally, the Department of Corrections must require all future private prison contracts to adhere to the department's established criteria for awarding Privately Operated Institutions Inmate Welfare Trust Fund monies so that the Department of Correction's staff can verify such funds are being used appropriately.

From the funds provided in Specific Appropriations 570 through 759, the

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

Department of Corrections shall implement an electronic time and attendance system in all regions. The department shall report installation and operational costs and annual cost savings projections related to the implementation of the electronic time and attendance system to the Speaker of the House of Representatives and the President of the Senate by November 1, 2011.

The department shall identify 6,400 prison beds at an average per diem of \$53.34 and implement cost efficiencies that will reduce the per diem by 5 percent. This plan may use Department of Corrections beds or privatized beds. The department shall provide this plan to the Governor's Office of Policy and Budget, the President of the Senate, and the Speaker of the House of Representatives by November 1, 2011.

Funds and positions in Specific Appropriations 570 through 688A and 726 through 759 support the state's inmate population increase. These funds and positions are sufficient to provide housing and security for 101,783 inmates when fully annualized. Variable expenses, maintenance, and health services funds are provided for an average daily population of 101,778 inmates.

Funds and positions in Specific Appropriation 570 through 688A and 726 through 759 are provided to address security needs for the additional prison population expected in Fiscal Year 2011-2012 as projected by the Criminal Justice Estimating Conference.

~~From the funds in Specific Appropriations 595 through 688A, \$250,000 in recurring general revenue funds is provided to the Department of Corrections to issue a request for proposal, as defined in section 287.057(1)(b), Florida Statutes, for the development of a water savings plan that creates performance standards for rain water harvesting and water reuse to achieve annual cost savings of at least 25 percent from the 2008, 2009, and 2010 calendar years. By no later than September 30, 2011, the department shall identify a vendor to conduct and inventory the water consumption of all department facilities consuming water for irrigation, gray water or drinking water purposes, including an inventory of each facility's roof surface area. To achieve these cost savings objectives, the vendor shall submit a plan to the department by February 1, 2012, which identifies the most cost effective plan for the procurement of services and cistern products and establishes performance standards for the efficient and effective use of water resources and estimates of future potential savings and other related benefits.~~

PROGRAM: COMMUNITY CORRECTIONS

From the funds in Specific Appropriations 689 through 725, the Department of Corrections may issue a request for proposal, as defined in section 287.057(1)(b), Florida Statutes, for a validated risk and needs assessment tool to classify offenders being supervised by the

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

department by level of risk to re-offend in the areas of violence, property or drug crimes, in order to guide recommendations regarding appropriate supervision. This instrument will assist in determining whether violators should complete community-based sanctions, return to incarceration, or be transferred to an appropriate reentry or community based program. The department may implement the risk assessment as an integrated web-based automated offender referral management system that matches the offenders' needs with appropriate service providers and interventions to enhance supervision and outcomes.

PROGRAM: HEALTH SERVICES

From the funds in Specific Appropriations 726 through 741, the Department of Corrections shall award contracts to private companies for the provision of health services. The department shall issue a request for proposal, in accordance with chapter 287, Florida Statutes, for statewide comprehensive health care services, excluding region 4, for inmates in the custody of the department. The department must also issue requests for proposals, in accordance with chapter 287, Florida Statutes, individually for regions 1, 2, and 3. These requests for proposal shall not apply to health care services for inmates housed in institutions authorized under the provisions of chapter 957, Florida Statutes. The contract or contracts shall take effect in Fiscal Year 2011-2012. Comprehensive health care services shall include physical health care services (including utilization management), dental services, and mental health services. The department shall determine the award based on best cost and interest to the state. Any intent to award for comprehensive health services is contingent upon a cost savings of at least 7 percent less than the department's Fiscal Year 2009-2010 healthcare expenditures. In order to achieve these cost savings, the contracts shall be written in a manner that enables the contractors to access the legislatively mandated Medicare plus 10 percent provider rates available to the department.

The contracts between the Department of Corrections and the private provider shall specifically require adherence to the requirements set forth in section 119.01, Florida Statutes, to ensure that any nongovernmental entity contracting with the Department of Corrections for the provision of health services shall have the same duty to release information about the provision of health services as a state agency providing such services would have under section 119.01, Florida Statutes.

The department must submit a cost-benefit analysis which delineates the

department's current costs of providing the services and the savings that would be generated by the transition plan yielding a minimum savings of at least 7 percent to the Legislative Budget Commission by December 1, 2011. The department shall only award a contract or contracts based on the approval of the Legislative Budget Commission. The department shall also submit recommended revisions to its operating budget including any savings for Fiscal Year 2011-2012 to the Legislative Budget Commission, and such savings shall be placed in reserve. Upon approval by the commission the department may award the contract for outsourcing of health services.

Current Department of Corrections' employees who are affected by the health services privatization initiatives shall be given first preference for continued employment by the contractors. The department shall make reasonable efforts to find a suitable job placement for employees who wish to remain state employees.

JUVENILE JUSTICE, DEPARTMENT OF

From the funds in Specific Appropriations 1068 through 1147, each provider who contracts with the Department of Juvenile Justice shall provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents shall include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate successful compliance with the performance measures described in the contract.

From the funds in Specific Appropriations 1068 through 1147, the

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

Department of Juvenile Justice shall establish a performance accountability system for each provider who contracts with the department for the delivery of services to children at-risk of future involvement in the criminal justice system, as determined by the department. The contract shall include both output measures, such as the number of children served, and outcome measures, such as program completion. The contractor shall report performance results annually to the department. The department's Office of Program Accountability shall summarize performance results from all contracts and report the information annually to the Legislature.

From the funds in Specific Appropriations 1068 through 1147, the Department of Juvenile Justice is directed to withhold funds from contract payments to any provider if that provider failed to comply with contract requirements that it maintain property insurance and if the failure to do so resulted in uninsured losses. The amount withheld shall not exceed the amount of the uninsured loss and may be reduced by other remedial actions agreed upon by the department and the provider.

From the funds in Specific Appropriations 1068 through 1147, the Department of Juvenile Justice must, before implementing any departmental reorganization plans, submit its proposal to the Governor's Office of Policy and Budget and to the Legislative Budget Commission for approval.

Funds in Specific Appropriations 1068 through 1147 shall not be used to pay for unoccupied space currently being leased by the Department of Juvenile Justice in the event the leases are vacant on or after July 1, 2011, and for which it has been determined by the Secretary of the department that there is no longer a need.

PROGRAM: JUVENILE DETENTION PROGRAM

DETENTION CENTERS

From the funds in Specific Appropriations 1068 through 1077A, the department may contract for services consistent with the department's Juvenile Detention Alternative Initiative (JDAI) and the Annie E. Casey Foundation to divert youth from secure detention to alternative community based services. These services should be designed using in-home and community advocacy to reduce the need for more expensive restrictive placements, build community capacity to reduce recidivism, create supported work opportunities for youth, and improve community safety.

From the funds in Specific Appropriations 1068 through 1077A, the amount from the Shared County/State Juvenile Detention Trust Fund available to the department shall be reduced by the actual reduction in cost associated with providing detention to those juveniles prior to adjudication from a county that opts to provide detention to juveniles prior to adjudication. The remaining counties that continue to place juveniles in the Department of Juvenile Justice's detention centers shall have their billings decreased by the actual reductions in cost, with an exception to fiscally constrained counties.

From the funds in Specific Appropriations 1068 through 1077A, the Florida Association of Counties and the Department of Juvenile Justice shall provide joint recommendations to fund alternatives for locally funded and operated juvenile detention to the Executive Office of the Governors, the President of the Florida Senate and the Speaker of the Florida House of Representatives no later than November 1, 2011. The Department of Juvenile Justice must notify the Senate Budget Committee, the House Appropriations Committee, and the Governor's Office of Policy and Budget of the date of any meeting at least one week prior to each meeting.

~~Of the funds in Specific Appropriation 1335, \$50,000 in nonrecurring funds from the General Inspection Trust Fund is provided for the Association of Florida Conservation Districts' contract for support services to all Florida's Soil and Water Conservation Districts.~~

Of the funds in Specific Appropriation 1335, \$4,000,000 in nonrecurring general revenue is provided for the Florida Water Quality Compliance and Improvement Best Management Practices project to adapt real-time radio frequency soil-sensor based systems from a limited research setting to deployment in agricultural fields to assess their effectiveness in irrigation decision-making, reduction in water use, and minimizing nutrient loss of nitrogen and phosphorous due to leaching and runoff. This project will include installing remote sensor systems in different field locations, calibrating the sensors to the fields, evaluating soil samples along a depth profile to determine moisture, nitrogen, and phosphorous content, and calculating daily water and nutrient uptake from different soil regions. The field data will be a concentration model for target crops that can be extended to the watershed level. Use of this model will augment weather, hydrologic, and water quality information for the development of improved best management practices for nutrient management and optimum irrigation scheduling for reduction of nutrient runoff and leaching.

From the funds in Specific Appropriation 1335, \$3,000,000 in nonrecurring general revenue is provided for the operation and maintenance of existing hybrid wetland/chemical treatment projects within the Northern Everglades pursuant to section 373.4595(3)(b), Florida Statutes.

From the funds in Specific Appropriation 1335, \$4,000,000 in recurring general revenue funds is provided for the Precision Agriculture Daily Logistics Online Calendar (PADLOC).

Of the funds in Specific Appropriation 1648C, \$4,000,000 in nonrecurring funds from the General Revenue Fund is provided for management of Florida's springs, which requires a science based methodology using tools that provide the ability to define the interactions of multiple physical, chemical and biological variables. Innovative monitoring systems shall be used within the drainage area of priority springs to define the fate and transport mechanisms associated with pollutants that threaten the health of these unique resources that are critical to the economic well being of the state. Targeted springs shall be those where restoration will have the greatest economic benefit to the region. Management activities will include installing monitoring equipment in different locations and measuring sources and management systems performance. The field data will be used to augment weather, hydrologic, water quality information, and watershed models for the development of improved restoration activities, including best management practices for reduction of nutrient runoff and leaching.

From the funds in Specific Appropriations 1895, 1896 and 1897, the Florida Fish and Wildlife Conservation Commission will conduct panther research on both public and private lands, as permitted by private landowners. The commission will develop improved methods to generate statistically sound estimates of the panther population size using best available science. The commission, in conjunction with the U.S. Fish and Wildlife Service and other partners, will use best available science to evaluate panther carrying capacity (ranges) and the consequences of inter-breeding the Florida panther with the Texas cougar. The commission will report progress on these objectives to the Office of Policy and Budget in the Governor's Office, the chair of the Senate Budget Committee and the chair of the House Appropriations Committee by December 15.

It shall be the responsibility of any entity to which such funds are appropriated to obtain the required certification prior to any expenditure of funds.

From the funds in Specific Appropriations 1984 through 2038, no federal or state funds shall be used to pay for space being leased by a Regional Workforce Board, Workforce Florida, Inc., or the Agency for Workforce Innovation if it has been determined by whichever entity is the lessee that there is no longer a need for the leased space. All leases, and performance and obligations under the leases, are subject to and contingent upon an annual appropriation by the Florida Legislature. In the event that such annual appropriation does not occur, or in the alternative, there is either a reduction in funding from the prior annual appropriation or the entity which is the lessee determines that the annual appropriation is insufficient to meet the requirements of the leases, then the lessee has the right to terminate the lease upon written notice by the lessee and the lessee shall have no further obligations under the contracts.

PROGRAM: WORKFORCE SERVICES

PROGRAM SUPPORT

From the funds in Specific Appropriation 2000 through 2010, it is the intent of the Legislature that the administration and delivery of workforce services and programs that are currently provided by agency employees working in One Stop Career Centers operated by the Regional Workforce Boards may be transferred from the Agency for Workforce Innovation to the Regional Workforce Boards. Such transfers shall only occur if the agency determines that the Regional Workforce Boards would more effectively and efficiently deliver services and if such transfers comply with applicable federal regulations. For all transfers made, the agency shall submit budget amendments pursuant to chapter 216, Florida Statutes, to move positions to the Executive Office of the Governor's reserve and realign the budget into the appropriate operating budget appropriation categories to implement the transfer of programs and service delivery to the Regional Workforce Boards.

From the funds in Specific Appropriations 2000 through 2010, the Agency for Workforce Innovation shall determine whether any funds provided for specific workforce programs, projects or initiatives are not an allowable use of federal funds. If the agency finds that any project or initiative for which funds are specifically appropriated in this act is not an allowable use of federal funds, the agency shall notify the Executive Office of the Governor, the chair of the Senate Committee on Budget and the chair of the House Appropriations Committee.

From the Child Care and Development Block Grant Trust Fund in Specific Appropriation 2033, a minimum of \$3,000,000 shall be used to enhance the quality of child care through the Teacher Education and Compensation Helps Program (T.E.A.C.H.).

From the funds in Specific Appropriation 2033 in the Welfare Transition Trust Fund, \$1,400,000 from recurring funds is provided for the Home Instruction Program for Pre-School Youngsters (HIPPY).

Funds in Specific Appropriation 2033 from the Child Care and Development Block Grant Trust Fund may be used to provide a rate differential or stipend to programs which reach the Gold Seal Quality Care designation. The rate differential shall not exceed twenty percent of the reimbursement rate.

Funds in Specific Appropriation 2033 require a match from local sources for working poor eligible participants of six percent on child care slots. In-kind match is allowable provided there is not a reduction in the number of slots or level of services from the provision of in-kind match. The Agency for Workforce Innovation may adopt a policy to grant a waiver of the six percent match requirement to a rural county that demonstrates a significant hardship in meeting the match requirement. Progress towards meeting this requirement shall be monitored by the Agency for Workforce Innovation, and shall be considered satisfactorily attained if the six percent requirement is met on a statewide basis.

From the funds in Specific Appropriation 2033, the Agency for Workforce Innovation shall designate an amount to be used for the Child Care Executive Partnership Program, as defined in section 411.0102, Florida Statutes, as match to expand the provision of services to low income families at or below 200 percent of the federal poverty level. Funds for this program may be used to match funds for statewide contracts.

From the funds in Specific Appropriation 2033, \$18,340,755 from the Welfare Transition Trust Fund and \$11,887,136 from the Child Care Development Block Grant Trust Fund are contingent upon the Temporary Assistance for Needy Families Block Grant Supplemental Funds being received during Fiscal Year 2011-2012. In the event that the full amount of the Temporary Assistance for Needy Families Block Grant Supplemental Funds is not received, the release of authority shall be in direct proportion to the amount of funds received.

From the funds provided in Specific Appropriation 2033 from the Child Care and Development Block Grant Trust Fund, \$5,000,000 is contingent upon the receipt of additional discretionary federal grant funds.

SOUTHWOOD SHARED RESOURCE CENTER

From the funds in Specific Appropriation 2707 through 2711, the Southwood Shared Resource Center (SSRC) shall implement the Plan for Standardization of Mainframe Software to Achieve Cost Savings and Operational Efficiencies that was submitted by the technical group comprised of subject matter experts from the SSRC and SSRC agency mainframe customers on November 1, 2010. If one of the affected agency mainframe customers is unable to comply with the implementation schedule that is included in the plan, the agency must submit a report to the Executive Office of the Governor, the chair of the Senate Budget Subcommittee on General Government Appropriations, and the chair of the House Government Operations Appropriations Subcommittee no later than August 1, 2011, explaining the specific issues preventing compliance and describing its plan and schedule for resolving the issues.

From funds in Specific Appropriations 2707 through 2711, the Southwood Shared Resource center shall develop a plan by December 31, 2011, to (1) consolidate the mainframe from the Department of Corrections with its existing mainframe platform and (2) standardize or replace existing mainframe software products to achieve cost savings and other operational efficiencies for mainframe services. In producing the plan, the SSRC shall identify specific software functions that can be performed more effectively through standardization or replacement, estimate the potential savings, and identify the timeframe for achieving the savings and other related benefits.

From the funds in Specific Appropriation 2868, up to \$85,000 from the Child Support Enforcement Application and Program Revenue Trust Fund and \$165,000 from the Federal Grants Trust Fund may be used by the Department of Revenue to fund the child support guideline review, which will be conducted by the Office of Economic and Demographic Research. From the funds provided for this purpose, the department shall reimburse the Office of Economic and Demographic Research for contractual costs incurred to conduct the review of the child support guidelines schedule. The review is in accordance with the federal Family Support Act of 1988, to ensure appropriate determination of child support award amounts and shall include development of a percent-of-obligor income and/or modified percent-of-obligor income model for Florida and estimated cost-savings and benefits to citizens and other entities of the proposed model. A final report is due to the Governor, the President of the Senate, and the Speaker of the House of Representatives by November 1, 2011. The Office of Economic and Demographic Research may contract with a state university or a nationally recognized organization for the purpose of collecting and analyzing the economic data necessary for the review.

Funds in Specific Appropriation 2941 shall be distributed to county supervisors of elections to be used for election administration activities such as voter education; pollworker training; standardizing elections results reporting; or other federal election administrative activities as approved by the Department of State.

County supervisors of elections will receive funds only after providing

SECTION 6 - GENERAL GOVERNMENT

the Department of State a detailed description of the programs that will be implemented. Funds distributed to county supervisors of elections require a certification from the county that matching funds will be provided in an amount equal to fifteen percent of the amount to be received from the state.

To be eligible, a county must segregate federal funds and required county matching dollars in a separate account established to hold only such funds. Funds in this account must be used only for the activities for which the funds were received. Funds shall remain in the account to be used for the same purposes for subsequent years or until such funds are expended. Supervisors of elections shall report to the Department of State any unspent funds remaining at June 30, 2012.
