The supplement shall be the sum of a student allocation and an exempt property allocation. To participate, districts must be eligible for federal Impact Aid funding under Section 8003, Title VIII of the Elementary and Secondary Education Act of 1965.

The student allocation shall be based on the total number of students, including students with disabilities, reported for federal impact aid who: 1) reside with a parent on active duty in the uniformed services or who is an accredited foreign government official and military officer, 2) reside on eligible Indian lands, or 3) reside with a civilian parent who lives or works on eligible federal property connected with a military installation or NASA. This third category shall be multiplied by a factor of 0.5. Students with disabilities shall also be counted separately for the first two categories. The total number of federally-connected students and the total number of students with disabilities shall be multiplied by 3 percent and 10.5 percent of the base student allocation, respectively. The exempt property allocation shall be equal to the tax-exempt value of federal impact aid lands reserved as military installations, real property owned by NASA, or eligible federally-owned Indian lands located in the district, multiplied by the millage authorized and levied under section 1011.71(2), Florida Statutes.

For the 2015-2016 fiscal year, this allocation shall be derived from the data reported by school districts for the federal Impact Aid Program, Section 8003, Title VIII of the Elementary and Secondary Education Act, for the 2015 federal fiscal year. If any board reduces individual programs or projects within the university by more than 10 percent during the 2015-2016 fiscal year, written notification shall be made to the Executive Office of the Governor, the President of the Senate, the Speaker of the House of Representatives, and the Board of Governors.

Pursuant to section 1011.90, Florida Statutes, the development of these appropriations was based on the planned enrollment for each university as submitted by the Board of Governors on March 18, 2015.

The funds available for allocation to the universities based on the performance funding model shall consist of the state's investment of \$150,000,000 in performance funding, plus an institutional investment of \$250,000,000 consisting of funds to be redistributed from the base funding of the State University System. The state investment shall be distributed in accordance with the performance funding model. The institutional investment shall be restored for all universities that meet the board's minimum performance funding threshold under the performance funding model. The Chancellor of the State University System shall withhold disbursement of the institutional investment until such time as the monitoring report for the university is approved by the board. Any university that fails to make satisfactory progress may not have its full institutional investment restored. If all funds are not restored, any remaining funds shall be redistributed in accordance with the board's performance funding model. The ability of a university to submit an improvement plan to the board is limited to one fiscal year.

By October 1, 2015, the Board of Governors shall submit to the Governor, the President of the Senate, and the Speaker of the House of Representatives a report on the previous year's performance funding allocation which reflects the rankings and award distributions.

From the funds in Specific Appropriation 203, \$80,934,038 in nonrecurring funds from the Grants and Donations Trust Fund and \$123,599,795 in nonrecurring funds from the Medical Care Trust Fund are provided to teaching faculty physicians for services provided by doctors of medicine and osteopathy, as well as other licensed health care practitioners acting under the supervision of those doctors pursuant to existing statutes and written protocols, employed by or under contract with a medical school in Florida. If approved by the Centers for Medicare and Medicaid Services, these funds may be paid directly to the faculty practice plans. Distribution for plans in existence shall be based on calendar year 2013 fee-for-service supplemental payments after adjusting for any state fiscal year 2014-2015 over or under payments; distribution for plans established after 2010 shall be based on historic methodologies using current year fee-for-service and managed care organization encounters. Any funds not distributed in accordance with the above shall be distributed on a pro rata basis to all participating practice plans. These distributions are for medical schools that meet participation requirements in the Low Income Pool. Funding is contingent upon the nonfederal share being provided through grants and donations from state, county or other governmental entities.

From the funds in Specific Appropriation 203, in the event the amount of approved nonfederal share of matching funds is not provided by local governmental entities, the agency may adjust low-income pool funds between programs described within this specific appropriation as necessary to ensure sufficient nonfederal matching funds. Any modification, under this provision, shall be consistent with the model, methodology and framework utilized by the Legislature.

From the funds in Specific Appropriation 203, the Agency for Health Care Administration may make low-income pool Medicaid payments in an accelerated manner that is more frequent than on a quarterly basis subject to the availability of state, local and federal funds.

Funds provided in Specific Appropriation 203, are contingent upon the nonfederal share being provided through grants and donations from state, county or other governmental funds.

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

SPECIFIC
APPROPRIATION

The moneys contained herein are appropriated from the named funds to the Department of Corrections, Justice Administration, Department of Juvenile Justice, Florida Department of Law Enforcement, Department of Legal Affairs/Attorney General, and the Florida Commission on Offender Review as the amounts to be used to pay the salaries, other operational expenditures and fixed capital outlay of the named agencies.

CORRECTIONS, DEPARTMENT OF

From the funds in Specific Appropriations 583 through 771, each provider contracting with the Department of Corrections must provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents must include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate successful compliance with the performance measures described in the contract.

The Department of Corrections shall continue to submit an annual report on the state prison system to the Governor and to the Legislature using a uniform format and uniform methodologies. The report shall include a comprehensive plan for current facility use and any departures from planned facility use, including opening new facilities, renovating or closing existing facilities, and advancing or delaying the opening of new or renovated facilities. The report shall include the maximum capacity of currently operating facilities and the potential maximum capacity of facilities that the department could make operational within the fiscal year. The report shall also identify appropriate sites for future facilities and provide information to support specified locations, such as availability of personnel in local labor markets. Reports should include updated infrastructure needs for existing or future facilities. Each report should reconcile capacity figures to the immediately preceding report. For the purpose of this paragraph, maximum capacity shall be calculated and displayed pursuant to section 944.023(1)(b), Florida Statutes. The department may provide additional analysis of current and future bed needs based on such factors as deemed necessary by the Secretary. The next report shall be due January 1, 2016.

From the funds in Specific Appropriations 583 through 771, the Department of Corrections shall prepare a report detailing the amount of overtime expended per facility; the number of positions in overlap, with justification for each overlapped position; and identifying the number of unfunded positions that may be eliminated. The report shall be submitted to the chair of the Senate Appropriations Committee and the chair of the House Appropriations Committee by January 1, 2016.

From the funds in Specific Appropriations 583 through 771, the Department of Corrections shall, before closing, substantially reducing the use of, or changing the purpose of any state correctional institution as defined in section 944.02, Florida Statutes, submit its proposal to the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee, and the chair of the House Appropriations Committee for review.

From the funds in Specific Appropriations 583 through 771 the Department of Corrections may work within its existing budget, including applicable grants, to implement any corrective action plan that is developed as the result of a Prison Rape Elimination Act audit conducted in accordance with Title 23, Part 115 of the Code of Federal Regulations. The department may request additional resources required through the Legislative Budget Request process as defined in chapter 216, Florida Statutes.

Funds in Specific Appropriation 583 through 771 shall not be used to pay for unoccupied space currently being leased by the Department of Corrections in the event the leases are vacant on or after July 1, 2015, and for which it has been determined by the Secretary of the department that there is no longer a need.

From the funds in Specific Appropriations 621, 633 and 646, a total of \$1,074,362 is provided as payment in lieu of ad valorem taxation for distribution to local government taxing authorities. Funding is provided as follows: \$269,324 for the Bay Correctional Facility, \$339,242 for the Moore Haven Correctional Facility, \$275,560 for the South Bay Correctional Facility, \$100,000 for the Gadsden Correctional Facility, and \$90,236 for the Lake City Correctional Facility. These distributions shall be adjusted, with respect to any facility, to reimburse the Department of Corrections for the total amounts expended by the state in resisting the imposition of such ad valorem tax claims, including all attorneys' fees and costs actually incurred by the state's agencies.

Funds and positions in Specific Appropriations 583 through 720A and 733 through 771 support the state's inmate population. These funds and positions are sufficient to provide housing and security for 100,290 inmates when fully annualized. Funds and positions in Specific Appropriations 583 through 720A and 733 through 771 are provided to address security needs for the prison population expected in Fiscal Year 2015-2016, as projected by the Criminal Justice Estimating Conference.

From such funds, the department shall also provide electronic monitoring for inmates in as many department-operated work release facilities as allowable under this Specific Appropriation, while such inmates are in the community under work release assignment.

From the funds in Specific Appropriation 681A and 729, the Department of Corrections shall conduct a review of the performance of electronic monitoring devices used to monitor work release inmates and offenders under community supervision. The review must concentrate on device performance under conditions and in locations that affect the ability of the device to acquire and maintain a GPS signal or to communicate with the electronic monitoring control facility. The review must also examine whether device performance or monitoring protocol requires an offender to move periodically in order to demonstrate that the device has not been altered or removed. The review must also compare costs, technical specifications, delay in providing location information, safeguards to prevent device removal and tampering, number of devices required to be maintained by the offender, and any other performance criteria the department determines to be essential to protecting public safety compared to alternative systems. The department shall prepare and submit a report of its findings to the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee, and the chair of the House Appropriations Committee by November 1, 2015.

JUVENILE JUSTICE, DEPARTMENT OF

From the funds in Specific Appropriations 1124 through 1208, each provider who contracts with the Department of Juvenile Justice shall provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents shall include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate successful compliance with the performance measures described in the contract.

From the funds in Specific Appropriations 1124 through 1208, the Department of Juvenile Justice shall establish a performance accountability system for each provider who contracts with the department for the delivery of services to children at-risk of future involvement in the criminal justice system, as determined by the department. The contract shall include both output measures, such as the number of children served, and outcome measures, such as program completion. The contractor shall report performance results annually to the department. The department's Office of Program Accountability shall summarize performance results from all contracts and report the information annually to the Legislature.

From the funds in Specific Appropriations 1124 through 1208, the Department of Juvenile Justice is directed to withhold funds from contract payments to any provider if that provider failed to comply with contract requirements that it maintain property insurance and if the failure to do so resulted in uninsured losses. The amount withheld shall not exceed the amount of the uninsured loss and may be reduced by other remedial actions agreed upon by the department and the provider.

From the funds in Specific Appropriations 1124 through 1208, the Department of Juvenile Justice must, before implementing any departmental reorganization plans, submit its proposal to the Governor's Office of Policy and Budget and to the Legislative Budget Commission for approval.

The funds in Specific Appropriations 1124 through 1208 shall not be used to pay for unoccupied space currently being leased by the Department of Juvenile Justice in the event the leases are vacant on or after July 1, 2015, and for which it has been determined by the Secretary of the department that there is no longer a need.

From the funds in Specific Appropriations 1124 through 1208, the department may work within its existing budget, including applicable grants, to implement any corrective action plan that is developed as the result of a Prison Rape Elimination Act audit conducted in accordance with Title 23, Part 115 of the Code of Federal Regulations. The department may request additional resources required through the

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

Legislative Budget Request process as defined in chapter 216, Florida Statutes.

From the funds in Specific Appropriations 1124 through 1208, the Department of Juvenile Justice shall conduct a comprehensive statewide review of county-level data, including a gap analysis of services and programs available across all counties in the state, to evaluate the implementation of juvenile justice policies at the county level. As the result of such review, the department shall prepare a report that includes benchmarking of counties' performance on factors that demonstrate how a county is supporting the department's strategic goals of preventing and diverting more youth from entering the juvenile justice system; providing appropriate, less restrictive, community-based sanctions and services; reserving serious sanctions for youth who pose the greatest risk to public safety; and focusing on rehabilitation. The report shall also include recommendations and strategies that can be implemented by the department or counties to address any identified deficiencies and to assist in developing a statewide, coordinated response across all of Florida's communities to support the department's strategic goals. A copy of the report shall be submitted to the Governor, the President of the Senate, and the Speaker of the House of Representatives by January 1, 2016.

PROGRAM: RESIDENTIAL CORRECTIONS PROGRAM

From the funds in Specific Appropriations 1178 through 1194, the Department of Juvenile Justice shall provide a weekly residential resource utilization report that identifies operating capacity, current placements, vacant placements, number of youth awaiting placement, and the percent of use for all residential commitment beds. The department may increase or decrease beds or overlay services provided that the change will better serve taxpayers and the youth under its care. Notification and justification of changes will be provided to the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee, and the chair of the House Appropriations Committee prior to implementing any change.

From the funds in Specific Appropriations 1178 through 1194, in selecting a private provider for operation of secure and non-secure residential programs, the Department of Juvenile Justice must consider the provider's history of performance of services in other jurisdictions as well as its performance of services in Florida. The department must also provide a report of serious incidents to the Governor, President of the Senate, and Speaker of the House of Representatives on no less than a quarterly basis. The report must include, at a minimum: the number of incidents and allegations of staff abuse or abuse by another child, including whether or not an allegation was substantiated; descriptions of incidents or allegations of such abuse that resulted in physical injury or significant psychological trauma, or that involved deprivation of food, water, or medical care; and the failure of a provider to report incidents or allegations within required timeframes established by the department. In addition, the department must conduct an independent review of each out-of-state provider before issuing a new contract. The report must be organized so that the incidents and allegations relating to a particular facility and to a particular provider can be readily ascertained. The department must also immediately report the death or serious bodily injury of a youth in a secure or non-secure residential program to the Governor, President of the Senate, and Speaker of the House of Representatives, and may make any additional reports that it determines to be appropriate based upon the seriousness of an incident or allegation.

PROGRAM: WORKFORCE SERVICES

WORKFORCE DEVELOPMENT

From the funds in Specific Appropriations 2193 through 2221, the Department of Economic Opportunity must determine if any funds provided for specific workforce programs, projects, or initiatives are not an allowable use of federal funds. If the department finds that any workforce program, project, or initiative for which funds are specifically appropriated in this act is not an allowable use of federal funds, the department must notify the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee, and the chair of the House Appropriations Committee.

When allocating full-time equivalent (FTE) positions to individual regional workforce boards, the Department of Economic Opportunity must ensure that workforce services are effectively and efficiently provided throughout the state. The department is authorized to reallocate any FTE position allocated to a regional workforce board that has been or becomes vacant for more than 180 days. When reallocating a vacant FTE position, the department must give priority to a regional workforce board that would use the FTE position to provide additional services to veterans.

Funds in Specific Appropriation 3078 shall be distributed to county supervisors of elections to be used for election administration activities such as voter education; pollworker training; standardizing elections results reporting; or other federal election administrative activities as approved by the Department of State.

County supervisors of elections will receive funds only after providing the Department of State a detailed description of the programs that will be implemented. Funds distributed to county supervisors of elections require a certification from the county that matching funds will be provided in an amount equal to fifteen percent of the amount to be received from the state.

Also, before a county supervisor of elections receives funds for any software or hardware technology, including, but not limited to any emerging technology that enhances or facilitates the delivery of absentee ballots, the casting and counting of valid votes, voting system audits or recount processes, and the certification of accurate and complete official election results, the software or technology must first be certified or approved, whichever is applicable by the Department of State. Additionally, before the Supervisor can receive funds for emerging or enhancing technology, the county supervisor of elections and the chairperson of the county governing body must certify that the county has purchased and made available sufficient equipment for casting and counting ballots to meet the needs of the county electors including reducing the wait time at the polls during the early voting period and on election day for the next regularly scheduled general election.

SECTION 6 - GENERAL GOVERNMENT

To be eligible, a county must segregate federal funds and required county matching dollars in a separate account established to hold only such funds. Funds in this account must be used only for the activities for which the funds were received. Funds shall remain in the account to be used for the same purposes for subsequent years or until such funds are expended. Supervisors of elections shall report to the Department of State any unspent funds remaining on June 30 of each fiscal year.
