JUVENILE JUSTICE, DEPARTMENT OF

From the funds in Specific Appropriations 1113 through 1192, the Department of Juvenile Justice may work within its existing budget, including applicable grants, to implement any corrective action plan that is developed as a result of a Prison Rape Elimination Act audit conducted in accordance with Title 28, Part 115 of the Code of Federal Regulations. The department may request additional resources required through the Legislative Budget Request process as defined in chapter 216, Florida Statutes.

From the funds in Specific Appropriations 1113 through 1192, the Department of Juvenile Justice shall conduct a comprehensive statewide review of county-level data, including a gap analysis of services and programs available across all counties in the state, to evaluate the implementation of juvenile justice policies at the county level. As a result of such review, the department shall prepare a report that includes benchmarking of counties' performance on factors that demonstrate how a county is supporting the department's strategic goals of preventing and diverting more youth from entering the juvenile justice system; providing appropriate, less restrictive, community-based sanctions and services; reserving serious sanctions for youth who pose the greatest risk to public safety; and focusing on rehabilitation. The report shall also include recommendations and strategies that can be implemented by the department or counties to address any identified deficiencies and to assist in developing a statewide, coordinated response across all of Florida's communities to support the department's strategic goals. A copy of the report shall be submitted to the Governor, President of the Senate, and Speaker of the House of Representatives by January 6, 2023.

Funds provided in Specific Appropriations 1130, 1138, 1169, 1175, 1182, 1185, 1187, and 1189 are provided for the sole purpose of raising hourly wages of employees of secure and nonsecure residential program providers and employees of prevention and intervention program providers to at least \$15.00 per hour.

The department shall enter into a supplemental wage agreement with each provider to include this minimum wage requirement to ensure compliance. The agreement must require the provider to agree to pay each of its employees at least \$15.00 per hour. The agreement shall include an attestation under penalty of perjury under section 837.012, Florida Statutes, stating that every employee of the provider, as of October 1, 2022, will be paid at least \$15.00 per hour.

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

Beginning January 1, 2023, an employee of a provider that is not receiving a wage of at least \$15.00 per hour may bring a civil action in a court of competent jurisdiction against his or her provider and, upon prevailing, shall recover the full amount of any back wages unlawfully withheld plus the same amount as liquidated damages, and shall be awarded reasonable attorney's fees and costs. In addition, they shall be entitled to such legal or equitable relief as may be appropriate to remedy the violation including, without limitation, reinstatement in employment and/or injunctive relief. Such actions may be brought as a class action pursuant to Rule 1.220 of the Florida Rules of Civil Procedure.

PROGRAM: RESIDENTIAL CORRECTIONS PROGRAM				

From the funds in Specific Appropriations 1168 through 1178, the Department of Juvenile Justice shall provide a monthly residential resource utilization report that identifies operating capacity, current placements, vacant placements, number of youth awaiting placement, and the percent of use for all residential commitment beds. The department may increase or decrease beds or overlay services provided the change will better serve taxpayers and the youth under its care. Notification and justification of changes will be provided to the Governor's Office of Policy and Budget, chair of the Senate Appropriations Committee, and chair of the House of Representatives Appropriations Committee prior to implementing any change.

From the funds in Specific Appropriations 1168 through 1178, the department must also provide a report of serious incidents to the Governor, President of the Senate, and Speaker of the House of Representatives on a quarterly basis. The report must include, at a minimum: the number of incidents and allegations of staff abuse or abuse by another child, including whether or not an allegation was substantiated; descriptions of incidents or allegations of such abuse that resulted in physical injury or significant psychological trauma, or that involved deprivation of food, water, or medical care; and the failure of a provider to report incidents or allegations within required timeframes established by the department. The department must also immediately report the death or serious bodily injury of a youth in a secure or non-secure residential program to the Governor, President of the Senate, and Speaker of the House of Representatives, and may make any additional reports that it determines to be appropriate based upon the seriousness of an incident or allegation.

From the funds in Specific Appropriations 2216 through 2308A, any expenditure from the Temporary Assistance for Needy Families (TANF) Block Grant must be expended in accordance with the requirements and limitations of Part A of Title IV of the Social Security Act, as amended, or any other applicable federal requirement or limitation. Before any funds are released by the Department of Children and Families, each provider shall identify the number of clients to be served and certify its eligibility under Part A of Title IV of the Social Security Act. Funds may not be released for services to any clients except those so identified and certified.

The department head or a designee must certify that controls are in place to ensure that such funds are expended in accordance with the requirements and limitations of federal law and that reporting requirements of federal law are met. It is the responsibility of any entity to which such funds are provided to obtain the required certification prior to any expenditure of funds.

SECTION 6 - GENERAL GOVERNMENT

From the funds in Specific Appropriations 2216 through 2308A, no federal or state funds shall be used to pay for space being leased by a Local Workforce Development Board, CareerSource Florida, or the Department of Economic Opportunity if it has been determined by whichever entity is the lessee that there is no longer a need for the leased space. All leases, and performance and obligations under the leases, are subject to and contingent upon an annual appropriation by the Florida Legislature. In the event that such annual appropriation does not occur, or in the alternative, there is either a reduction in funding from the prior annual appropriation or the entity which is the lessee determines that the annual appropriation is insufficient to meet the requirements of the leases, then the lessee has the right to terminate the lease upon written notice by the lessee and the lessee shall have no further obligations under the contracts.

PROGRAM: WORKFORCE SERVICES

WORKFORCE DEVELOPMENT

From the funds in Specific Appropriations 2242 through 2267, the Department of Economic Opportunity must determine if any funds provided for specific workforce programs, projects, or initiatives are not an allowable use of federal funds. If the department finds that any workforce program, project, or initiative for which funds are specifically provided in this act is not an allowable use of federal funds, the department must notify the Executive Office of the Governor's Office of Policy and Budget, the chair of the Senate Committee on Appropriations, and the chair of the House of Representatives Appropriations Committee.

When allocating full-time equivalent (FTE) positions to individual local workforce development boards, the Department of Economic Opportunity must ensure that workforce services are effectively and efficiently provided throughout the state. The department is authorized to reallocate any FTE position allocated to a local workforce development board that has been or becomes vacant for more than 180 days. When reallocating a vacant FTE position, the department must give priority to a local workforce development board that would use the FTE position to provide additional services to veterans.

From the funds in Specific Appropriations 2242 through 2245, and 2248 through 2250, 25 percent of these funds shall be held in reserve. Release is contingent upon the Department of Economic Opportunity releasing competitive solicitations for the procurement of the service integration platform and common customer portal for the Consumer-First Workforce Information System project no later than October 1, 2022. Upon the posting of these competitive solicitations, the department may request release of funds for approval by the Legislative Budget Commission pursuant to the provisions of chapter 216, Florida Statutes.

PROGRAM: EMERGENCY MANAGEMENT

EMERGENCY PREVENTION, PREPAREDNESS AND RESPONSE

The Division of Emergency Management must submit quarterly status reports on the outstanding obligations for each federally declared disaster event to the Executive Office of the Governor's Office of Policy and Budget, the chair of the Senate Committee on Appropriations, and the chair of the House of Representatives Appropriations Committee no later than the 15th day of the month following the end of a quarter. Based on the most recent quarterly report, the division must also provide an allocation of funding by appropriation category and funds needed to meet these obligations for the budget request year.

In order to properly store, manage, maintain, and deploy emergency supplies during emergency activations and responses, the Division of Emergency Management, in consultation with the Department of Health, shall solicit procurement proposals for the lease, acquisition, or construction of warehouse storage space as well as an inventory management solution. Proposals must be from experienced providers who can demonstrate successful past performance of projects similar in size, scope, and complexity. Proposals shall address:

1. The integration and colocation of the Division of Emergency Management and the Department of Health warehouses into a new, fully-licensed and regulatory-compliant warehouse footprint with facilities at various geographic locations that meet the state's strategic needs for safety and distribution.
2. The capability of the warehouse facilities to store emergency supplies, including food and water, health and medical supplies, and medical equipment, including personal protective equipment, durable medical equipment, and medical countermeasures, in the correct environment with appropriate security, temperature, and humidity controls and in compliance with licensing and regulatory standards. Facility square footage shall be sufficient to access, maintain, inventory and distribute such supplies, which includes a PPE inventory pursuant to section 252.35(2)(u), Florida Statutes.
3. A staffing plan that ensures facility staff have appropriate knowledge, skills, and training to maintain, organize, identify, and package all types of emergency supplies, including medical equipment.
4. An inventory and quality management system that tracks and traces, in real-time, the state's emergency supplies. The system must be able to track the number, type, location, and expiration date of supplies in real-time; facilitate the regular testing, maintenance, and rotation of supplies and equipment; and provide real-time reporting to assist in the state's emergency response.

Proposals should identify the one-time and on-going costs associated with site selection and preparation, design and construction, retrofitting or renovations, leasing, utilities, software, and staffing, as appropriate. A proposal for an inventory management system is not required to be bundled with a proposal for the lease, acquisition, or construction of warehouse storage space. The division, with the Department of Health, shall develop a report that summarizes the proposals received; compares the costs and benefits of the proposals to the existing storage model; and identifies the most appropriate and cost-effective solution. The report shall be submitted to the Governor, the President of the Senate, and the Speaker of the House of Representatives by November 30, 2022.

Funds in Specific Appropriation 2781A are provided to competitively procure a contract with an independent third party consulting firm, in consultation with the Department of Corrections, to conduct a review of state-operated correctional institutions, as defined in section 944.02, Florida Statutes, and develop a multi-year master plan that addresses the repair, maintenance, or replacement of state operated institutions in the prison system. The master plan must identify appropriate specifications necessary for safe, secure, cost effective and efficient correctional institutions, including facilities for inmate health care, substance abuse and mental health treatment, other special needs, and education, consistent with appropriate correctional standards. The master plan must include a comprehensive review of the physical plant needs of the department using those specifications, including associated staffing needs, and must prioritize identified facility needs, based on the immediacy of the issues. The master plan must identify:

1. Each institution, by facility type, capacity, age of facilities, staffing needs, and historical officer vacancy rates;

Each status report must include progress made to date detailing updates to the master plan and anticipated completion date.
