

## Committee Substitute for Senate Bill No. 720

An act relating to physician practice; amending s. 458.3312, F.S.; revising provisions regarding board certification of a physician as a specialist; amending ss. 458.347 and 459.022, F.S.; providing that a supervising physician may not be required to review and cosign a physician assistant's charts or medical records; deleting certain supervisory physician requirements related to prescribing and dispensing medications noted in appropriate medical records; amending s. 458.348, F.S.; exempting offices at which laser hair removal is the exclusive service being performed from certain provisions requiring direct supervision by a physician; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Section 458.3312, Florida Statutes, is amended to read:

458.3312 Specialties.—A physician licensed under this chapter may not hold himself or herself out as a board-certified specialist unless the physician has received formal recognition as a specialist from a specialty board of the American Board of Medical Specialties or other recognizing agency that has been approved by the board. However, a physician may indicate the services offered and may state that his or her practice is limited to one or more types of services when this accurately reflects the scope of practice of the physician. A physician may not hold himself or herself out as a board-certified specialist in dermatology unless the recognizing agency, whether authorized in statute or by rule, is triennially reviewed and reauthorized by the Board of Medicine.

Section 2. Subsection (3) and paragraph (e) of subsection (4) of section 458.347, Florida Statutes, are amended to read:

458.347 Physician assistants.—

(3) PERFORMANCE OF SUPERVISING PHYSICIAN.—Each physician or group of physicians supervising a licensed physician assistant must be qualified in the medical areas in which the physician assistant is to perform and shall be individually or collectively responsible and liable for the performance and the acts and omissions of the physician assistant. A physician may not supervise more than four currently licensed physician assistants at any one time. A physician supervising a physician assistant pursuant to this section may not be required to review and cosign charts or medical records prepared by such physician assistant.

(4) PERFORMANCE OF PHYSICIAN ASSISTANTS.—

(e) A supervisory physician may delegate to a fully licensed physician assistant the authority to prescribe or dispense any medication used in the supervisory physician's practice unless such medication is listed on the formulary created pursuant to paragraph (f). A fully licensed physician

assistant may only prescribe or dispense such medication under the following circumstances:

1. A physician assistant must clearly identify to the patient that he or she is a physician assistant. Furthermore, the physician assistant must inform the patient that the patient has the right to see the physician prior to any prescription being prescribed or dispensed by the physician assistant.

2. The supervisory physician must notify the department of his or her intent to delegate, on a department-approved form, before delegating such authority and notify the department of any change in prescriptive privileges of the physician assistant. Authority to dispense may be delegated only by a supervising physician who is registered as a dispensing practitioner in compliance with s. 465.0276.

3. The physician assistant must file with the department, before commencing to prescribe or dispense, evidence that he or she has completed a continuing medical education course of at least 3 classroom hours in prescriptive practice, conducted by an accredited program approved by the boards, which course covers the limitations, responsibilities, and privileges involved in prescribing medicinal drugs, or evidence that he or she has received education comparable to the continuing education course as part of an accredited physician assistant training program.

4. The physician assistant must file with the department, before commencing to prescribe or dispense, evidence that the physician assistant has a minimum of 3 months of clinical experience in the specialty area of the supervising physician.

5. The physician assistant must file with the department a signed affidavit that he or she has completed a minimum of 10 continuing medical education hours in the specialty practice in which the physician assistant has prescriptive privileges with each licensure renewal application.

6. The department shall issue a license and a prescriber number to the physician assistant granting authority for the prescribing of medicinal drugs authorized within this paragraph upon completion of the foregoing requirements. The physician assistant shall not be required to independently register pursuant to s. 465.0276.

7. The prescription must be written in a form that complies with chapter 499 and must contain, in addition to the supervisory physician's name, address, and telephone number, the physician assistant's prescriber number. Unless it is a drug or drug sample dispensed by the physician assistant, the prescription must be filled in a pharmacy permitted under chapter 465 and must be dispensed in that pharmacy by a pharmacist licensed under chapter 465. The appearance of the prescriber number creates a presumption that the physician assistant is authorized to prescribe the medicinal drug and the prescription is valid.

8. The physician assistant must note the prescription or dispensing of medication in the appropriate medical record, ~~and the supervisory physician must review and sign each notation. For dispensing purposes only, the~~

~~failure of the supervisory physician to comply with these requirements does not affect the validity of the prescription.~~

9. This paragraph does not prohibit a supervisory physician from delegating to a physician assistant the authority to order medication for a hospitalized patient of the supervisory physician.

This paragraph does not apply to facilities licensed pursuant to chapter 395.

Section 3. Subsection (3) of section 458.348, Florida Statutes is republished, and paragraph (e) of subsection (4) of that section is amended to read:

458.348 Formal supervisory relationships, standing orders, and established protocols; notice; standards.—

(3) PROTOCOLS REQUIRING DIRECT SUPERVISION.—All protocols relating to electrolysis or electrology using laser or light-based hair removal or reduction by persons other than physicians licensed under this chapter or chapter 459 shall require the person performing such service to be appropriately trained and work only under the direct supervision and responsibility of a physician licensed under this chapter or chapter 459.

(4) SUPERVISORY RELATIONSHIPS IN MEDICAL OFFICE SETTINGS.—A physician who supervises an advanced registered nurse practitioner or physician assistant at a medical office other than the physician's primary practice location, where the advanced registered nurse practitioner or physician assistant is not under the onsite supervision of a supervising physician, must comply with the standards set forth in this subsection. For the purpose of this subsection, a physician's "primary practice location" means the address reflected on the physician's profile published pursuant to s. 456.041.

(e) This subsection does not apply to health care services provided in facilities licensed under chapter 395 or in conjunction with a college of medicine, a college of nursing, an accredited graduate medical program, or a nursing education program; ~~offices where the only service being performed is hair removal by an advanced registered nurse practitioner or physician assistant~~; not-for-profit, family-planning clinics that are not licensed pursuant to chapter 390; rural and federally qualified health centers; health care services provided in a nursing home licensed under part II of chapter 400, an assisted living facility licensed under part I of chapter 429, a continuing care facility licensed under chapter 651, or a retirement community consisting of independent living units and a licensed nursing home or assisted living facility; anesthesia services provided in accordance with law; health care services provided in a designated rural health clinic; health care services provided to persons enrolled in a program designed to maintain elderly persons and persons with disabilities in a home or community-based setting; university primary care student health centers; school health clinics; or health care services provided in federal, state, or local government facilities. Subsection (3) and this subsection do not apply to offices at which the exclusive service being performed is laser hair removal by an advanced registered nurse practitioner or physician assistant.

Section 4. Subsection (3) and paragraph (e) of subsection (4) and of section 459.022, Florida Statutes, are amended to read:

459.022 Physician assistants.—

(3) PERFORMANCE OF SUPERVISING PHYSICIAN.—Each physician or group of physicians supervising a licensed physician assistant must be qualified in the medical areas in which the physician assistant is to perform and shall be individually or collectively responsible and liable for the performance and the acts and omissions of the physician assistant. A physician may not supervise more than four currently licensed physician assistants at any one time. A physician supervising a physician assistant pursuant to this section may not be required to review and cosign charts or medical records prepared by such physician assistant.

(4) PERFORMANCE OF PHYSICIAN ASSISTANTS.—

(e) A supervisory physician may delegate to a fully licensed physician assistant the authority to prescribe or dispense any medication used in the supervisory physician's practice unless such medication is listed on the formulary created pursuant to s. 458.347. A fully licensed physician assistant may only prescribe or dispense such medication under the following circumstances:

1. A physician assistant must clearly identify to the patient that she or he is a physician assistant. Furthermore, the physician assistant must inform the patient that the patient has the right to see the physician prior to any prescription being prescribed or dispensed by the physician assistant.

2. The supervisory physician must notify the department of her or his intent to delegate, on a department-approved form, before delegating such authority and notify the department of any change in prescriptive privileges of the physician assistant. Authority to dispense may be delegated only by a supervisory physician who is registered as a dispensing practitioner in compliance with s. 465.0276.

3. The physician assistant must file with the department, before commencing to prescribe or dispense, evidence that she or he has completed a continuing medical education course of at least 3 classroom hours in prescriptive practice, conducted by an accredited program approved by the boards, which course covers the limitations, responsibilities, and privileges involved in prescribing medicinal drugs, or evidence that she or he has received education comparable to the continuing education course as part of an accredited physician assistant training program.

4. The physician assistant must file with the department, before commencing to prescribe or dispense, evidence that the physician assistant has a minimum of 3 months of clinical experience in the specialty area of the supervising physician.

5. The physician assistant must file with the department a signed affidavit that she or he has completed a minimum of 10 continuing medical education hours in the specialty practice in which the physician assistant has prescriptive privileges with each licensure renewal application.

6. The department shall issue a license and a prescriber number to the physician assistant granting authority for the prescribing of medicinal drugs authorized within this paragraph upon completion of the foregoing requirements. The physician assistant shall not be required to independently register pursuant to s. 465.0276.

7. The prescription must be written in a form that complies with chapter 499 and must contain, in addition to the supervisory physician's name, address, and telephone number, the physician assistant's prescriber number. Unless it is a drug or drug sample dispensed by the physician assistant, the prescription must be filled in a pharmacy permitted under chapter 465, and must be dispensed in that pharmacy by a pharmacist licensed under chapter 465. The appearance of the prescriber number creates a presumption that the physician assistant is authorized to prescribe the medicinal drug and the prescription is valid.

8. The physician assistant must note the prescription or dispensing of medication in the appropriate medical record, ~~and the supervisory physician must review and sign each notation. For dispensing purposes only, the failure of the supervisory physician to comply with these requirements does not affect the validity of the prescription.~~

9. This paragraph does not prohibit a supervisory physician from delegating to a physician assistant the authority to order medication for a hospitalized patient of the supervisory physician.

This paragraph does not apply to facilities licensed pursuant to chapter 395.

Section 5. This act shall take effect July 1, 2009.

Approved by the Governor June 16, 2009.

Filed in Office Secretary of State June 16, 2009.
