

CHAPTER 2020-109

Committee Substitute for House Bill No. 1005

An act relating to voting systems; amending s. 97.021, F.S.; defining the term “automatic tabulating equipment” for purposes of the Florida Election Code; amending s. 101.5612, F.S.; revising the timeframes for certain public testing of automatic tabulating equipment; amending s. 101.5614, F.S.; revising procedures governing the canvassing of returns to specify usage of a voting system’s automatic tabulating equipment; amending s. 102.141, F.S.; specifying the circumstances under which ballots must be processed through automatic tabulating equipment in a recount; amending s. 102.166, F.S.; specifying the manner by which a manual recount may be conducted; revising requirements for hardware or software used in a manual recount; authorizing overvotes and undervotes to be identified and sorted physically or digitally in a manual recount; revising minimum requirements for Department of State rules to require procedures regarding the certification and use of automatic tabulating equipment for manual recounts; providing construction; providing effective dates.

Be It Enacted by the Legislature of the State of Florida:

Section 1. Present subsections (5) through (46) of section 97.021, Florida Statutes, are renumbered as subsections (6) through (47), respectively, and a new subsection (5) is added to that section, to read:

97.021 Definitions.—For the purposes of this code, except where the context clearly indicates otherwise, the term:

(5) “Automatic tabulating equipment” means an apparatus that automatically examines, counts, and records votes.

Section 2. Effective upon becoming a law, subsection (2) of section 101.5612, Florida Statutes, is amended to read:

101.5612 Testing of tabulating equipment.—

(2) On any day not more than 25 ~~10~~ days before ~~prior to~~ the commencement of early voting as provided in s. 101.657, the supervisor of elections shall have the automatic tabulating equipment publicly tested to ascertain that the equipment will correctly count the votes cast for all offices and on all measures. If the ballots to be used at the polling place on election day are not available at the time of the testing, the supervisor may conduct an additional test not more than 10 days before election day. Public notice of the time and place of the test shall be given at least 48 hours prior thereto by publication on the supervisor of elections’ website and once in one or more newspapers of general circulation in the county or, if there is no newspaper of general circulation in the county, by posting the notice in at least four conspicuous

places in the county. The supervisor or the municipal elections official may, at the time of qualifying, give written notice of the time and location of the public preelection test to each candidate qualifying with that office and obtain a signed receipt that the notice has been given. The Department of State shall give written notice to each statewide candidate at the time of qualifying, or immediately at the end of qualifying, that the voting equipment will be tested and advise each candidate to contact the county supervisor of elections as to the time and location of the public preelection test. The supervisor or the municipal elections official shall, at least 30 ~~15~~ days before ~~prior to~~ the commencement of early voting as provided in s. 101.657, send written notice by certified mail to the county party chair of each political party and to all candidates for other than statewide office whose names appear on the ballot in the county and who did not receive written notification from the supervisor or municipal elections official at the time of qualifying, stating the time and location of the public preelection test of the automatic tabulating equipment. The canvassing board shall convene, and each member of the canvassing board shall certify to the accuracy of the test. For the test, the canvassing board may designate one member to represent it. The test shall be open to representatives of the political parties, the press, and the public. Each political party may designate one person with expertise in the computer field who shall be allowed in the central counting room when all tests are being conducted and when the official votes are being counted. The designee shall not interfere with the normal operation of the canvassing board.

Section 3. Paragraph (a) of subsection (4) and subsections (6) and (7) of section 101.5614, Florida Statutes, are amended to read:

101.5614 Canvass of returns.—

(4)(a) If any vote-by-mail ballot is physically damaged so that it cannot properly be counted by the voting system's automatic tabulating equipment, a true duplicate copy shall be made of the damaged ballot in the presence of witnesses and substituted for the damaged ballot. Likewise, a duplicate ballot shall be made of a vote-by-mail ballot containing an overvoted race or a marked vote-by-mail ballot in which every race is undervoted which shall include all valid votes as determined by the canvassing board based on rules adopted by the division pursuant to s. 102.166(4). Upon request, a physically present candidate, a political party official, a political committee official, or an authorized designee thereof, must be allowed to observe the duplication of ballots. All duplicate ballots shall be clearly labeled "duplicate," bear a serial number which shall be recorded on the defective ballot, and be counted in lieu of the defective ballot. After a ballot has been duplicated, the defective ballot shall be placed in an envelope provided for that purpose, and the duplicate ballot shall be tallied with the other ballots for that precinct.

(6) Vote-by-mail ballots may be counted by the voting system's automatic tabulating equipment if they have been marked in a manner which will enable them to be properly counted by such equipment.

(7) The return printed by the voting system's automatic tabulating equipment, to which has been added the return of write-in, vote-by-mail, and manually counted votes and votes from provisional ballots, shall constitute the official return of the election upon certification by the canvassing board. Upon completion of the count, the returns shall be open to the public. A copy of the returns may be posted at the central counting place or at the office of the supervisor of elections in lieu of the posting of returns at individual precincts.

Section 4. Paragraph (a) of subsection (7) of section 102.141, Florida Statutes, is amended to read:

102.141 County canvassing board; duties.—

(7) If the unofficial returns reflect that a candidate for any office was defeated or eliminated by one-half of a percent or less of the votes cast for such office, that a candidate for retention to a judicial office was retained or not retained by one-half of a percent or less of the votes cast on the question of retention, or that a measure appearing on the ballot was approved or rejected by one-half of a percent or less of the votes cast on such measure, a recount shall be ordered of the votes cast with respect to such office or measure. The Secretary of State is responsible for ordering recounts in federal, state, and multicounty races. The county canvassing board or the local board responsible for certifying the election is responsible for ordering recounts in all other races. A recount need not be ordered with respect to the returns for any office, however, if the candidate or candidates defeated or eliminated from contention for such office by one-half of a percent or less of the votes cast for such office request in writing that a recount not be made.

(a) Each canvassing board responsible for conducting a recount shall put each marksense ballot through automatic tabulating equipment and determine whether the returns correctly reflect the votes cast. If any marksense ballot is physically damaged so that it cannot be properly counted by the automatic tabulating equipment during the recount, a true duplicate shall be made of the damaged ballot pursuant to the procedures in s. 101.5614(4). Immediately before the start of the recount, a test of the tabulating equipment shall be conducted as provided in s. 101.5612. If the test indicates no error, the recount tabulation of the ballots cast shall be presumed correct and such votes shall be canvassed accordingly. If an error is detected, the cause therefor shall be ascertained and corrected and the recount repeated, as necessary. The canvassing board shall immediately report the error, along with the cause of the error and the corrective measures being taken, to the Department of State. No later than 11 days after the election, the canvassing board shall file a separate incident report with the Department of State, detailing the resolution of the matter and identifying any measures that will avoid a future recurrence of the error. If the automatic tabulating equipment used in a recount is not part of the voting system and the ballots have already been processed through such equipment, the canvassing board is not required to put each ballot through any automatic tabulating equipment again.

Section 5. Subsections (1), (2), and (5) of section 102.166, Florida Statutes, are amended, and subsection (6) is added to that section, to read:

102.166 Manual recounts of overvotes and undervotes.—

(1) If the second set of unofficial returns pursuant to s. 102.141 indicates that a candidate for any office was defeated or eliminated by one-quarter of a percent or less of the votes cast for such office, that a candidate for retention to a judicial office was retained or not retained by one-quarter of a percent or less of the votes cast on the question of retention, or that a measure appearing on the ballot was approved or rejected by one-quarter of a percent or less of the votes cast on such measure, a manual recount of the overvotes and undervotes cast in the entire geographic jurisdiction of such office or ballot measure shall be ordered unless:

(a) The candidate or candidates defeated or eliminated from contention by one-quarter of 1 percent or fewer of the votes cast for such office request in writing that a recount not be made; or

(b) The number of overvotes and undervotes is fewer than the number of votes needed to change the outcome of the election.

The Secretary of State is responsible for ordering a manual recount for federal, state, and multicounty races. The county canvassing board or local board responsible for certifying the election is responsible for ordering a manual recount for all other races. A manual recount consists of a recount of marksense ballots or of digital images of those ballots by a person.

(2) Any hardware or software used to identify and sort overvotes and undervotes for a given race or ballot measure must be certified by the Department of State ~~as part of the voting system pursuant to s. 101.015.~~ Any such hardware or software must be capable of simultaneously identifying and sorting overvotes and undervotes in multiple races while simultaneously counting votes. Overvotes and undervotes must be identified and sorted while recounting ballots pursuant to s. 102.141. Overvotes and undervotes may be identified and sorted physically or digitally.

(5) Procedures for a manual recount are as follows:

(a) The county canvassing board shall appoint as many counting teams of at least two electors as is necessary to manually recount the ballots. A counting team must have, when possible, members of at least two political parties. A candidate involved in the race shall not be a member of the counting team.

(b) Each duplicate ballot prepared pursuant to s. 101.5614(4) or s. 102.141(7) shall be compared with the original ballot to ensure the correctness of the duplicate.

(c) If a counting team is unable to determine whether the ballot contains a clear indication that the voter has made a definite choice, the ballot shall be presented to the county canvassing board for a determination.

(d) The Department of State shall adopt detailed rules prescribing additional recount procedures for each certified voting system which shall be uniform to the extent practicable. The rules shall address, at a minimum, the following areas:

1. Security of ballots during the recount process;
2. Time and place of recounts;
3. Public observance of recounts;
4. Objections to ballot determinations;
5. Record of recount proceedings; ~~and~~
6. Procedures relating to candidate and petitioner representatives; and
7. Procedures relating to the certification and the use of automatic tabulating equipment that is not part of a voting system.

(6) Nothing in this section precludes a county canvassing board or local board involved in the recount from comparing a digital image of a ballot to the corresponding physical paper ballot during a manual recount.

Section 6. Except as otherwise expressly provided in this act and except for this section, which shall take effect upon becoming a law, this act shall take effect January 1, 2021.

Approved by the Governor June 27, 2020.

Filed in Office Secretary of State June 27, 2020.
